Dear Heritage Bidder,

It is our pleasure to once again welcome you to our September Long Beach Signature Auction for World and Ancient Coins. The Heritage team has been busy putting together another outstanding offering of over 5100 lots for your bidding pleasure. It will take a total of six auction sessions to sell the lots from over 200 consignors, in this official auction of the Long Beach Coin Expo. To browse the online catalog with full descriptions, previous archives, and enlargeable images, please direct your browser to [HA.com/3020](http://HA.com/3020).

As has become tradition, we have a wonderful selection of Latin American coins from Argentina to Mexico, and from Peru to Brazil. There are three golden "Sunface" 8 Escudos going under the hammer (including an MS63!) which are not commonly seen in a catalog but look under "Argentina" and there they are. Over 250 lots from Brazil are offered, including an amazing group of silver 640 Reis (from the Santana Collection), amongst which are an extremely rare 1816-B specimen, and all of the 5 dates struck at the Minas mint including the ultra-rare, one-year type 1818-M. We also feature a very interesting group of gold coins from South America's largest country including a nearly unique 4000 Reis of 1820 struck at the Bahia mint. Our group of Cuban coins, although just 50 lots or so, is nothing short of amazing with every 1915 Proof issue, including the 20 Pesos in PF65 Cameo! From Mexico, several pre-1750 8 Escudos are offered, in addition to over 150 lots. Chile, Ecuador, Peru and Colombia are all proudly represented as well.

From Europe, once again our offering of British coins is truly amazing with over 600 lots. Collectors of British coinage will enjoy reading Mr. Bruce Lorich's brilliant descriptions and will certainly be able to find one or several pieces to add to their collections. Special attention should be paid to one of the most beautiful Henry VIII Sovereigns we have seen. France and Germany are both well represented with 150 and 250 lots respectively. Russia, which continues to move back up in value, has 239 lots with high grade proof issues, Gem gold and platinum, and rare medals. We especially enjoyed handling the beautifully diverse pieces of Russia.

From the Asian continent, we present 250 lots from China, which despite a recent correction in value, continues to be the central area of interest in Asian numismatics. India, which is growing steadily in strength, is represented by nearly 100 lots with some very interesting proof pieces (special mention to the lots of the "Ted Reams Collection") in Gold and Silver.

Finally, from the grand continent of Africa, we have a beautiful group of South African coinage including Gem Ponds and better silver issues.

As always, if you make it in person to Long Beach, please make sure to visit us at our lot viewing room or our bourse table and say "hello". Although we just published this catalog, preparations for our next event, the NYINC Auction in January, is in full steam. Deadline for consignment is November 5<sup>th</sup> but the sooner we can get your coins, the sooner we can put the Heritage Marketing "machine" to work for your benefit. Give us a call or drop us an email!

## The JG Collection

The consignor of The JG Collection grew up in the Midwest and began collecting when he was just 10, some 70 years ago. His collection grew and grew, spreading from United States coins to Ancients, World, tokens, medals and other exnumia. Eventually, he settled on Ancient coinage as his specialty, as it offered him the ability to delve deep into the history and academic research he so enjoyed, but his United States and World coins are just as impressive. When Heritage picked up the collection, every single coin was meticulously cataloged and neatly tucked away in small 2 x 2 envelopes, many of which were marked from landmark auctions from the mid 1950s! Wrapping up an amazing collecting career is not easy, but the consignor has decided that it is time to let others enjoy the coins he has treasured for so long.

The consignor's professional life includes proudly serving in the United States Army during WW II, attending law school, earning his master's degree, and having his own law practice in the Midwest for over 50 years. He has been married to the same "hometown gal" for 58 years. They have two grown children, one of whom is his law partner, and two grandchildren.

## The Kim Werner Collection of Ancient Greek Coins

The late Kim Werner was born in Eau Claire, Wisconsin in 1944. He made a very successful career as a real estate attorney in Toledo, OH, which enabled him to pursue his passion for collecting across a broad spectrum. A lover of classical music, he assembled an impressive collection of antique sheet music, music boxes, and more than 4,400 CDs. Antiquarian books, French and English art, and gemstones also numbered among his collecting interests. He retired 12 years ago, allowing him to devote his full time and energy to his collections. He became an expert in each field and was very discriminating in his acquisitions, which shows through clearly in his collection of ancient Greek coins.

## Colonel Ted Reams

To show what kind of numismatist Colonel Reams was from the very beginning, he shared with me one of his earliest memories of coin collecting. He writes, "In 1972 as an inexperienced young airman stationed overseas, and a fledgling numismatist, when I finally got an irritated Turkish official at the Istanbul Mint to understand what I wanted, he returned with a handful of loose Proof Crowns. I carefully examined them all, chose the nicest of the lot, and then was horrified when he rubbed his thumb across the face to remove the toning. Before he put it in the official envelope, I quickly asked for another, which had been my second choice, indicated that I wanted it left untouched and bought both of them (so as not to irritate him further), selling the first one to a collector on the base at Karamursel."

This shows that even from the beginning, without any numismatic advice, Ted instinctively went for the finest of the bunch. When I met him in the 1980's, his mind was set on only finding the nicest example available and patience wasn't a problem. He travelled a great deal, and I sent him coins to Europe, Hawaii, and various other US mainland addresses, as he travelled about in the service of his country. Sometimes the money for the purchase wasn't there, but if the coin was nice enough, the arrangements could be made to 'find' the money which always added a little 'something' to our deals. Ted was, and is, the kind of collector who would become a friend, as you travelled the world trying to find (mostly) George V coins, choice enough to satisfy his needs. We talked and wrote often and only half of the conversation was about coins. The rest was just conversation between friends. He wanted to know as much as possible about his coins, but knowing the circumstances of finding the coin had meaning to him as well.

I trust the next owners will find thirty-plus years of enjoyment out of these beautiful coins of Ted's, as he did.

Cheers,

Randy Weir

## An Extremely Elusive 640 Reis

Gomes' latest (2006) edition simply says "Rare". ## Major Brazilian Gold Rarity

**23269 Joao VI gold 4000 Reis 1820(B)**, KM327.3, Russo-581, MS62 NGC, lightly toned with exceptionally bold design features, struck at the Bahia Mint without mintmark. This piece lists simply as "Rare" or "Extremely Rare" in every reference material we consulted including Krause, Russo, Gomez, Salgado, Prober and others. Missing from Eliasberg, Norweb and most importantly Carlos Costa's collection which now sits at the Banco Espirito Santo Museum. The only record we know of a 1820 Bahia 4000 Reis is from the Thomas Faistauer collection sold by Hess-Divo in the 1990's (which may well be this very coin). In any event, this is a major gold rarity struck in Brazil just at the dawn of its independence a couple of years later. Adding to the incredible appeal of this coin, of course, is that it is in mint state condition.

## BRITISH GUIANA

- 23310 George V Proof Fourpence 1911**, KM28, choice Proof, first year of issue where the total mintage for the three year type is 90,000 pieces. It makes sense that a few Proofs would be struck for the first year of issue, to be sent to museums around the world. This piece has more of a Matte finish, but the strike and edges show that this coin was produced for a special purpose. Believed to be part of the Melbourne Mint duplicates sale.  
*From The Ted Reams Collection.*  
Estimate: \$500-\$750  
Starting Bid: \$250

- 23311 George V Proof Fourpence 1925, KM29, PR63 NGC**, unlisted as a Proof, ex South Africa Mint duplicates private sale. Lacquered as many museum coins have been. Deep mirror surfaces with lightly frosted bust. Hard to discern if all the hairlines are in the lacquer or are some in the coin but to find a 1925 4 pence in UNC is virtually as rare as a Proof, regardless of what the catalogue suggests.  
*From The Ted Reams Collection.*  
 Estimate: \$500-\$800

- 23938 Edward III (1327-77) gold Noble ND, S-1486, N-1144, French title, annulet stops, 4th Coinage, Pre-treaty Period, AU50 NGC, a pleasing example, the design well detailed, the flan round without cracks, no problems at all. Gold was rarely seen in England prior to the late issues of Edward III; this piece was struck circa 1351-52 and was intended for use in the wool trade with the Continent. Coins having only the French title were issued 1351-61 as a class. Estimate: \$2,500-\$3,000 Starting Bid: \$1,800**

- 23939 Edward III (1327-77) gold Noble ND, S-1490, N-1144/1180, French title, annulet stops, 4th Coinage, Pre-treaty Period, MS62 NGC; despite the grade assigned, this is without doubt a Choice UNC example of the first type of Noble, for it has full original undipped luster, an excellent flan, an exceptionally well-detailed face of the king in his ship, and overall is beautifully preserved and sharp in detail. During this reign, the English king aggravated his people's traditional enemy, France, by adding to the royal titles "Rex Francie" and this claim continued for centuries, until the time of George III, but was famously interrupted in the 1360s when the title was altered, during and after the Treaty of Bretigni, appearing as Latin versions of Duke of Aquitaine for the treaty period and finally both titles appeared for what has come to be known as the Post-Treaty period. What mattered at the time in international relations were the large gold coins, those advertising wealth and rule. Gold had not been coined with any regularity since the 7th century. Military dominance was a key ingredient, then as now, in diplomatic negotiations, and here King Edward is depicted riding high in his war ship, which is widely believed to have originated to mark the English naval victory at Sluys, in 1340. This denomination became long lived and was a key ingredient for the success of the wool trade with Flanders. It was widely copied by other monarchs on the Continent. Not many pieces are as fine as this specimen, which somehow survived in nearly perfect condition all these centuries later. Estimate: \$5,000-\$6,000 Starting Bid: \$2,500**

- 23940 Henry V (1413-22) gold Noble ND**, S-1742, N-1371, Unc Details "Edge Filing" NGC, a lustrous and appealing example of this famous king's largest gold coin.

 Starting Bid: \$1,500

- 23941 Henry VII (1485-1509) gold Angel ND**, S-2181A, Cinquefoil/Escallop mm mule, AU50 NGC, obverse struck from porous die, the reverse nice and sharp. Rare.

 Estimate: \$4,000-\$5,000  
 Starting Bid: \$2,000

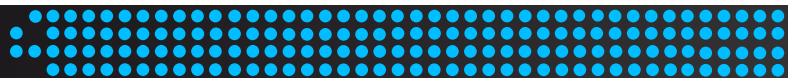

- 23942 Henry VIII (1509-47) Groat ND**, S-2337C, 2nd Coinage, late bust, AU50 NGC, truly a lovely example, with a nearly perfect strike, balanced details, charming Tudor portrait, and great color. The central reverse shield has given up some details, accounting for the unusually fine portrait.  
 Estimate: \$800-\$1,000  
 Starting Bid: \$400

- 23943 Henry VIII (1509-47) gold Crown of the Double Rose ND**, S-2273, N-1788, HK initials, rose mm (Tower mint, 1526-29), VF, gently smoothed and yet a pleasing coin on an excellent flan. Second Coinage of 1526-44 while Henry was married to Katherine of Aragon, his first wife.  
 Estimate: \$1,000-\$1,500  
 Starting Bid: \$500

- 23944 Henry VIII (1509-47) gold Crown of the Double Rose ND**, S-2274, "HK" and Lis mm on each side, XF with luster and choice but for a flan crack at about 6 o'clock obverse; such cracks are often seen on hammered gold and this lovely piece has loads of fine details showing. Struck during Henry's marriage to Katherine of Aragon. An historical piece!  
*The Marston Collection of British Coins.*  
 Estimate: \$1,500-\$2,000  
 Starting Bid: \$750

A Beautiful Henry VIII Sovereign

## Henry VIII Gold Rarity

**23945 Henry VIII (1509-47) gold Sovereign ND, S-2267, N-1782, Schneider-570/573 (rev.),** very rare 2nd Coinage issue of 1526-44, portcullis below feet, Tower Mint London, Lis over Sunburst blundered obverse mm, Arrow (or crossbow bolt) reverse mm (struck 1537-42), AU50 NGC, a truly pleasing coin having residual luster, struck on a wonderful broad flan, the images perfectly centered and superbly detailed, Henry's small face sharp to the eye, and remarkably pleasing surfaces almost entirely free from abrasion. In fact, the only "fault" the cataloguer can find is a faint rim bruise at 3 o'clock obverse. How did such a large coin, made of nearly pure (23 ct, 3.5 gr, or .995 fine) soft gold, ever survive in such splendid condition? We sometimes see the comment "miracle of survival" used for modern milled coins, but this coin is four and a half centuries old, and the expression takes on much more significance. All in all, then, this is a great example of a really historic coin — a very valuable piece of money worth 22 shillings and sixpence when it was created, a huge amount of buying power at the time, and the harbinger of centuries of coinage in gold called "the sovereign." We cannot find a comparable quality specimen having sold for some time, and we note that Spink sold an example (also S-2267) in 2010, described as "extremely fine" but seemingly not quite this coin's equal, for £62,000.

It was the best of times. It was the worst of times. When young Henry Tudor was crowned in 1509, he inherited a wealthy realm. His very person represented a sunburst of opportunity for the English. He was a powerful man, physically and mentally. He was well schooled. He was also dangerous to any political opponent who dared to question his will. And he was a deeply troubled man. His early vigor declined as sport took its toll on his body. He could not sire the male heir(s) he so wished for, and blamed his failure on a succession of now-famous wives. His one son was born sickly and could never begin to measure up to his father. Edward died in his youth. Ironically, Henry's second daughter, by Anne Boleyn, the princess Elizabeth, was largely ignored in her youth by her ambitious father but she lived on to ultimately rescue the reputation of the Tudors and became arguably England's greatest queen. As she grew up, her father grew out — became corpulent — and his arrogance turned into vengeful meanness. His spending also became flagrantly abusive to the treasury, to the point that he caused lead to be taken from windows and church roofs all over his realm, causing many to collapse. His action has come to be known to history as the dissolution of the monasteries, in part an act of vengeance against a church he came to despise when it would not relent to his wishes for repeated divorce. He gave ever greater power to his own cardinals, some of whom gained his grant to allow them to make coinage partly in their own names. He spent his realm nearly into poverty. By 1542, he had gone through almost all the fortune from his father's treasury. He began to debase his money. The gold was less and less fine. The silver coinage finally was nothing but silver heavily laced with copper alloy, and his infamous Testoon of 1544-47 when slightly worn showed its base metal, causing both Henry and his coin to be disparagingly called Old Copper Nose. The previous glory of his nearly pure gold coins soon vanished, and so did many of the coins themselves, into the melting pot. The various issues of his Fine Sovereigns represent Henry Tudor's finest fiscal and spiritual years. In this rift lay Henry's greatest irony. Despite the fact that Henry would end up splitting from the Holy Catholic church at Rome, his massive gold sovereign boasts devoutness in its reverse legend, *IESUS AUTEM TRANSIENS PER MEDIUM ILLORUM IBAT*, here on this coin written out in its entirety, boldly impressed, translating from Latin to mean "But Jesus, passing through the midst of them, went His way" (Luke 4:30). If Henry saw himself as godlike and of divine choice, and there is strong evidence to support this concept, then the quotation from the Scriptures used on his coins takes on another meaning entirely after he distanced himself from the Catholic pope and his numberless followers. The church aside, King Henry gained more and more enemies and quiet dissenters, all afraid of him, and justifiably so. The last powerful Tudor king had transformed his realm from the best of times in 1509 into the worst by 1547, when he died a despised and much-feared old man. Henry managed to distort himself, his money, and his kingdom into withered images of their former selves. His subjects, high and low, he inveigled with his debased money. Today, all of Henry VIII's early gold is fairly rare, and especially so his largest coin, the Sovereign. It offers its admirers a splendid image of a once powerful and vigorous monarch who commanded vast wealth and influence, as well as respect, when it dropped from the mint's dies centuries ago. Somehow, it survived Henry's greed. And it would be his rejected daughter's task to restore the English money to its former grandeur — as represented by this magnificent coin.

Estimate: \$75,000-\$100,000

Starting Bid: \$37,500

- 23946 Edward VI (1547-53) Halfcrown 1551**, S-2479, "y" mm for Southwark, Choice VF, remarkably clear legends, handsome light golden gray patina. Exceptionally fine.  
Estimate: \$1,750-\$2,500  
Starting Bid: \$875

- 23947 Edward VI (1547-53) Crown 1551**, S-2478, VF25 NGC, a handsomely toned and fairly sharp example of this classic, first English crown to feature an armored rider riding on an armored steed.  
Estimate: \$2,000-\$3,000  
Starting Bid: \$1,000

- 23948 Mary (1553-54) gold Angel ND**, S-2490, N-1958, Pomegranate mm, annulet stops, rare, VF or finer in details but the surfaces are porous, suggesting a possible sea-salvage source. Despite this, the important images are clear, the legends are generally bold, there are no scuffs, and the thin gold flan is not bent, just slightly wavy probably as struck.  
*The Marston Collection of British Coins.*  
Estimate: \$4,000-\$5,000  
Starting Bid: \$2,000

- 23949 James I (1603-25) gold Britain Crown ND**, S-2626, N-2092, 2nd Coinage, Tun mm (struck 1615-16), AU58 Cheshire Collection NGC, lustrous on a well-formed and almost round flan, sharply detailed with an expressive portrait.  
Estimate: \$1,750-\$2,500  
Starting Bid: \$875

- 23950 James I (1603-25) gold Angel ND**, S-2615, N-2081, 2nd Coinage, Cinquefoil mm (struck 1613-15), rare, Choice VF, sharp and appealing for grade, struck on a broad flan with all legends intact including outer beaded rims, tiny thin crack between R E in REX near rim.  
*The Marston Collection of British Coins.*  
Estimate: \$4,000-\$5,000  
Starting Bid: \$2,000

- 23951 James I (1603-25) gold Half Laurel ND**, S-2641A, N-2117, 3rd Coinage, Trefoil mm (struck 1624), AU55 NGC, a pleasing coin having a well-detailed portrait and excellent legends showing some doubling, the broad flan containing almost all of the outer beaded rim.  
Estimate: \$2,750-\$3,500  
Starting Bid: \$1,375

- 23952 James I (1603-25) gold Laurel ND**, S-2638B, N-2114, 3rd Coinage, Trefoil mm (struck 1624), AU50 NGC, well struck on a broad flan, the reverse particularly appealing. (Evidently attributed as having a Lis mm based on the date given on the grading insert.)  
Estimate: \$3,250-\$4,000  
Starting Bid: \$1,625

**King James's Splendid Gold Ryal**

- 23953 James I (1603-25) gold Rose-ryal ND, S-2613, N-2079, Schneider-6, 2nd Coinage, Rose mm (struck 1605-06), rare, XF Details "Repaired, Edge Filed" NGC, but needless to say the edge is not visible within the big white insert of the slab. The coin is in fact a choice piece, glowing with luster, struck on a huge, almost fully round flan of excellent quality, all design elements deeply impressed producing a marvelous image of King James on his throne holding the orb and scepter of authority, a boldly detailed portcullis at his feet, both mintmarks clear, the central shield of the reverse within the large Tudor rose very bold, and all legends sharp as well. The flan is only slightly wavy, thus normal. The surfaces are without damage. Few serious historical collectors would much mind any filing on the edge of this thin issue. During this reign, the Latin legend MAG BRI and variants, standing for Great Britain, was introduced 1604-19. As always, the obverse legend was political in its purpose. The reverse legend, however, remains steadfastly religious in nature, its Latin translating to mean "This is the Lord's doing and it is marvelous in our eyes" (Psalm 118:23). All in all, this massive gold coin, worth an impressive 30 Shillings when it was produced, is**

intricately designed, deeply detailed, and truly lovely!  
*The Marston Collection of British Coins.*  
 Estimate: \$15,000-\$20,000  
 Starting Bid: \$7,500

- 23954 Charles I (1625-49) gold Unite ND, S-2692, N-2153, Tower Mint issue under the King, Bell mm (struck 1634-35), Choice VF, a charming coin having great detail in the often-mushy portrait, legends and reverse crowned shield also very clear, CR to sides indistinct, broad flan of excellent quality, the gold color delightful to the eye.**  
 Estimate: \$2,000-\$2,500  
 Starting Bid: \$1,000

- 23955 Charles I (1625-49) gold Unite ND, S-2690, N-2150, Tower Mint issue under the King, Plume mm (struck 1630-31), scarce in any grade, AU Details "Mount Removed" NGC, a very sharply detailed example, the portrait crisp as is the reverse crowned shield, legends large and unusually clear, flan only slightly wavy (thus normal), pleasing surfaces and color.**  
 Estimate: \$3,000-\$4,000  
 Starting Bid: \$1,500

- 23956 Commonwealth Shilling 1649, S-3217, Sun mm, rare date, XF Details "Surface Hairlines" NGC, cleaned but on a solid round flan with most details really sharp, including the date.**  
 Estimate: \$750-\$1,000  
 Starting Bid: \$375

- 23957 Commonwealth Shilling 1651, S-3217, Sun mm, XF45 NGC, sharply detailed, pleasing gray patina.**

 Starting Bid: \$1,500

- 23958 Commonwealth Shilling 1651**, S-3217, Sun mm, AU Details "Scratches" NGC, a beautiful coin despite two short scratches at bottom of obverse field. Other abrasions are ancient. Struck on an excellent flan, sharply detailed, and pleasingly toned.  
Estimate: \$1,500-\$2,000  
Starting Bid: \$750

- 23959 Cromwell Shilling 1658**, S-3228, Choice VF, almost perfect for the grade, with classic, even golden gray toning. Designed by Thomas Simon. A classic. Desirable and very affordable.

Starting Bid: \$1,250

- 23962 Cromwell gold Broad 1656**, S-3225, 20 Shillings' value at issue, AU Details "Removed from Jewelry, Polished" NGC. Despite the slab description, this remains a desirable and very rare piece, the first Guinea in effect, designed by Thomas Simon. When Oliver Cromwell died, his son Richard failed to gain support, Oliver was disgraced by the returning loyalists, and it was dangerous to walk around with, or even own, any coins bearing his likeness. The ban must not have lasted too long, because many of his coins found today are worn, some heavily, indicating years of commercial use. Others were kept as mementoes, hidden initially but then worn as jewelry, as we see in the case of the presently offered example. While its surfaces are not original, many collectors will see value in this specimen, and some will find it still charming (including the cataloguer). Odd to say but the toning is an appealing deep orange gold. An English classic.  
Estimate: \$12,000-\$15,000  
Starting Bid: \$6,000

- 23963 Charles II Sixpence 1678/7**, S-3382, MS61 NGC, a wonderful coin for a Charles II sixpence, the portrait crisp, the surfaces a perfectly toned golden gray with flashy highlights. Overdate clear. About as fine as exists.  
Estimate: \$900-\$1,100  
Starting Bid: \$450

**23964 Charles II Halfcrown 1672**, S-3366, ESC-471, 3rd Bust, V. QVARTO edge, AU55 NGC, a joy of a halfcrown for this king, the obverse beautifully toned with a great portrait, reverse silvery in color, a super piece.  
Estimate: \$2,500-\$3,250  
Starting Bid: \$1,250

**23965 Charles II Halfcrown 1673**, S-3367, ESC-473, 4th Bust, AU50 NGC, even gray toning.  
Estimate: \$1,500-\$2,000  
Starting Bid: \$750

**23966 Charles II Halfcrown 1674/3**, S-3367, ESC-476A (rated R4), 4th Bust, russet gray toning.  
Estimate: \$900-\$1,200  
Starting Bid: \$450

**23967 Charles II Crown 1676**, S-3358, ESC-51, 3rd Bust, AU58 NGC, an exceptional coin having rich bluish gray toning over much residual luster, the surfaces remarkably free from blemishes.  
Estimate: \$4,000-\$5,000  
Starting Bid: \$2,000

**23968 Charles II gold 5 Guineas 1677**, S-3328A, 1st Bust, NONO edge, XF Details "Excessive Surface Hairlines" NCS, actually an attractive piece, nicer than most available to the market, sharp in detail and having considerable eye-appeal. Several of our cataloguers have examined this coin, and we all fail to see the mentioned "excessive" hairlines. It's a normal fiver.  
Estimate: \$8,000-\$10,000  
Starting Bid: \$4,000

**23969 Charles II gold 5 Guineas 1683**, S-3331, 2nd Bust, T. QUINTO edge, VF Details "Harshly Cleaned" NCS.  
Estimate: \$3,000-\$4,000  
Starting Bid: \$1,500

- 23970 Charles II gold Elephant & Castle 5 Guineas 1684**, S-3332, 2nd Bust, T. SEXTO edge, VF Details "Excessive Surface Hairlines" NCS.  
Estimate: \$3,000-\$4,000  
Starting Bid: \$1,500

- 23971 James II Halfcrown 1685**, S-3408, ESC-493, 1st Bust, AU50 NGC, golden gray toning with a rich look.  
Estimate: \$2,500-\$3,000  
Starting Bid: \$2,300

- 23972 James II gold 5 Guineas 1687**, S-3397, 1st Bust, AU Details "Rim Filed" NCS, but in point of fact the rims are not affected while the entire edge has been planed off. None the less, the obverse and reverse count most and they host a lovely aged rose-gold patina, portrait and shield both sharp and pleasing. Probably worn by some aristocrat as jewelry at one time.  
Estimate: \$3,000-\$5,000  
Starting Bid: \$1,500

- 23973 James II gold 5 Guineas 1688**, S-3397, 1st Bust, VF30 Details "Ex-Jewelry-Cleaned" ANACS.

Starting Bid: \$1,000

- 23974 William & Mary Shilling 1693**, S-3437, VF35 NGC, tightly graded and nearly XF, the central portions of the jugate portraits weak mainly because of strike, not wear, the surfaces really pleasing and toned in some vivid shades of blue and gold. Rare so fine.  
Estimate: \$750-\$1,000  
Starting Bid: \$375

- 23975 William & Mary Elephant-hallmark gold Guinea 1692**, S-3428, XF Details "Surface Hairlines, Scratched" NGC.  
*The Marston Collection of British Coins.*  
Estimate: \$1,500-\$2,000  
Starting Bid: \$750

- 23976 William III Halfpenny 1696**, S-3554, 1st Issue with Laureate and Cuirass Bust, normal dies, MS65 BN NGC, deep chocolate brown in color, with sharp details and pretty well centered for this type, which is normally seen so wretched that even the SCBC plate coin pales by comparison to the super-choice example offered in this lot. If you are an early British coppers enthusiast seeking a really exceptional King William halfpenny, you should examine this coin, then bid for it. Difficult indeed to replicate in this quality.  
Estimate: \$3,000-\$3,500  
Starting Bid: \$3,000

- 23977 William III Sixpence 1696**, S-3520, 1st Bust, small harp in shield, MS64 PCGS, brilliant flashy luster, sharp.

A joyous example of the famous Anne Farthing, technically a pattern but the adopted style, all pieces struck after the queen's death in this year.  Estimate: \$2,250-\$2,750  
 Starting Bid: \$1,900

**23985 Anne gold 5 Guineas 1711**, S-3568, Post Union, XF Details "Surface Hairlines" NCS, bold portrait and shield and both sharper than XF level in the cataloguer's opinion, considerable residual luster, overall an impressive coin with plenty of eye-appeal even if not quite technically good enough to be assigned a numerical assessment by NGC. Most collectors would love to own this coin! Estimate: \$9,000-\$12,000 Starting Bid: \$4,500

**23986 Anne silver Coronation Medal 1702**, by Croker, Eimer-390, BHM-228.4, the official royal Mint issue, MS63 NGC, super sharp in details and having handsome silvery gray patina. A choice example. Estimate: \$800-\$1,000 Starting Bid: \$800

Starting Bid: \$3,250

**23992 George I Crown 1716**, S-3639, ESC-110, Roses & Plumes reverse, AU58 NGC, a really desirable example of this very scarce first issue of the British-German king, whose portrait is here bold in all details while the reverse is marked by crisply impressed letters of the legend and a wonderfully balanced sharp strike on the shield, and the surfaces are the perfect color for this period, a smooth golden silvery gray patina that is light enough to allow the underlying luster to show through. A really fine example of this crown!  
*From The Kim Werner Collection.*  
Estimate: \$3,500-\$4,500  
Starting Bid: \$1,750

**23993 George I Crown 1723-SSC**, S-3640, ESC-114, AU58 NGC, another beautifully balanced and sharply impressed crown of this first Hanover king, this one bearing the historical hallmark "SSC" indicating that it was struck from silver "donated" to the mint by the South Sea Company of London, upon the failure of their corporation. It was the first stock bubble in British history, and the coins that emanated from its ruins have become classics of the era. This piece has appealing gray surfaces with amber-gold hues.  
Estimate: \$3,500-\$4,500  
Starting Bid: \$1,750

**23994 George II Farthing 1739**, S-3720, Young Head, MS65 BN NGC, soft details in the king's hair but still a really exquisite gem of a farthing, surfaces near perfection for a copper, the color a rich chocolate brown with tinges of mint red luster and lovely bluish hues covering all.  
Estimate: \$750-\$1,000  
Starting Bid: \$375

**23995 George II Halfpenny 1751**, S-3719, Old Bust, MS64 BN NGC, a beautiful gem copper with crisp details, struck from slightly rusted dies, and the color a rich chocolate brown with tinges of mint red luster, the luster somewhat reflective, with bluish hues adding to the eye-appeal.  
Estimate: \$750-\$1,000  
Starting Bid: \$375

**23996 George II Proof Shilling 1746**, S-3704, ESC-1208, Old Bust, PR62 NGC, a bit dull looking due to its deep golden gray patina but this seems harshly graded as the surfaces are reflective and there are no apparent defects. Rare: one of 100 struck for the proof set of this year.  
Estimate: \$1,250-\$1,750  
Starting Bid: \$625

**23997 George II Halfcrown 1731**, S-3692, Roses & Plumes reverse, Choice XF, unusually attractive for the grade level, colorful golden bluish gray patina, a charming coin.

## An Excellent 1746 Proof Crown

- 23998 George II Proof Crown 1746**, S-3690, ESC-126, Old Bust, rare, PR65 PCGS, one of the finest known examples of this superbly designed crown depicting King George in his periwig with a lion's face on the shoulder of his armored blouse. JS Tanner engraved the dies. One hundred sets were coined in proof state this year — containing a sixpence, shilling, halfcrown, and crown — for the first Proof Set made by the Royal Mint specifically for sale to numismatists. Only the wealthy could afford such a set in 1746, but most sets known today indicate that the coins were commonly mishandled, now showing heavy hairlines and/or marks. Not this wonderful one, though! It is virtually pristine, and blessed with rich olive-brown and golden blue iridescence atop reflective surfaces.  
 Estimate: \$18,000-\$20,000  
 Starting Bid: \$17,000

## A Stunning Early Georgian Half Guinea

- 23999 George II gold Half Guinea 1738**, S-3681A, Young Bust, MS63 Terner PCGS, prooflike luster, boldly detailed portrait, tiny portions of reverse shield a bit soft, overall a very choice Mint State coin of exceptional eye-appeal with sparkling luster, and the single finest example of this style (Young Laureate Bust combined with the Modified Garnished Shield reverse) seen by this cataloguer. Still listed by PCGS in the Registry Set for Dr. Jacob Terner; he owned only exceptional coins and yet it was solidly among his finest half guineas. The cataloguer has never seen another of this date finer than XF. Very rare.  
 Estimate: \$12,000-\$14,000  
 Starting Bid: \$10,250

- 24000 George II gold 2 Guineas 1738**, S-3667B, Young Bust, lustrous AU, even sharp strike, a pleasing example.

*From The Kim Werner Collection.*  
 Estimate: \$1,750-\$2,250  
 Starting Bid: \$875

- 24002 George II gold 5 Guineas 1729-EIC, S-3664, Young Bust, AU50 Details "Tooled-Cleaned" ANACS, better looking than it sounds, with bold details on the portrait and reverse shield. Made from gold specie supplied by the East India Company of London. Rare.**  
 Estimate: \$5,000-\$7,000  
 Starting Bid: \$2,500

- 24005 George II Issue Era, silver Medals Set: Dassier's Kings and Queens of England, issued 1731, Eimer-526, portraits of monarchs from William I to George II, missing Cromwell but with 2 types of Mary I, all struck in high relief, a boldly detailed and pleasing set, nearly as struck, offering the owner all sorts of insignia, regal titles, royal crests and suchlike. Eimer values the silver set, complete, in silver, at £14,000 (about \$22,500). (Total: 34 coins)**  
 Estimate: \$15,000-\$20,000  
 Starting Bid: \$7,500

Estimate: \$800-\$1,000  
Starting Bid: \$800

- 24011 George III copper Pattern Guinea 1782**, WR-98 variant (copper, not gold), KM-PnA59, Stanhope, plain edge, MS65 BN NGC, a gem with marvelous mahogany-brown toned surfaces, bold details, struck in a crude collar. A really beautiful example of this private pattern, most often seen in this metal. (Grading insert calls this W&R-100 variant but that is the raised lettered edge variety; also mis-identifies this as a 1/2 G.)  
Estimate: \$800-\$1,000  
Starting Bid: \$400

- 24012 George III gold Guinea 1784**, S-3728, 4th Bust, MS61 NGC, sharp and lustrous with some abrasions in the soft gold, mainly on the obverse.

Starting Bid: \$1,700

- 24017 George III gold Guinea 1798**, S-3729, 5th Bust, Spade reverse, MS64 NGC, very choice, some light ticks and very faint hairlines, obverse a bit soft in strike on the portrait. Only a few Spade Guineas of any date have been given this high grade.  
*From The Kim Werner Collection.*  
Estimate: \$3,500-\$4,000  
Starting Bid: \$1,750

- 24018 George III gold Guinea 1798**, S-3729, 5th Bust, Spade reverse, MS64 Turner PCGS, simply Gem UNC in the cataloguer's opinion, and noticeably finer than the previous MS64 coin, this one gleaming with 18th-century luster, a few tiny ticks showing on the obverse, the strike on the portrait bold for this shallowly engraved style, the reverse just superb and medallion in striking quality. All in all, *a marvelous coin* which was once in the famous Turner Collection and remains listed in his Registry Set at PCGS. If you are seeking an awesome Spade Guinea, here it is!  
Estimate: \$4,500-\$5,500

Estimate: \$500-\$700  
Starting Bid: \$250

- 24025 George III Proof Halfpenny 1799**, S-3778, PR63 BN Cameo NGC, glittering copper surfaces, brown with faint purplish hues. (Attributed as P-1246 by NGC, a bronzed pattern of different die pairing; this piece has the flaw through G on obverse as well as the patch of rust under Britannia's right armpit, and is copper, not bronzed, which matches no Peck number.)  
Estimate: \$500-\$700  
Starting Bid: \$250

- 24026 George III Pattern Halfpenny 1805**, P-1309 (VS), bronzed restrike, PR64 BN NGC, dark brown.

Starting Bid: \$300

- 24029 George III Penny 1797**, S-3777, KM618, MS64 BN NGC, a choice piece with considerable faded mint red, so the "BN" grade is irrelevant.

Starting Bid: \$625

- 24030 George III Penny 1797**, S-3777, KM618, MS65 BN NGC, hints of red here and there, obverse particularly pleasing with a boldly struck portrait.

Estimate: \$650-\$850  
Starting Bid: \$325

- 24034 George III Proof Penny 1806**, S-3780, KM663, copper, PR64 RB Cameo NGC, a few tiny ticks and some light carbon detract very little from the lovely eye-appeal of this mirrored coin, with a rich bluish hue and more than a little mint color.  
Estimate: \$700-\$900  
Starting Bid: \$350

- 24035 George III Twopence 1797**, S-3776, KM619, MS63 BN NGC, very choice with the look of a better grade, mostly light brown in color, dappled on reverse. George III's largest coin.  
Estimate: \$1,000-\$1,250  
Starting Bid: \$900

- 24036 George III Mint Error Sixpence 1816**, S-3791, KM665 for type, Mint Error MS65 "Broadstruck with Mirror Brockage on Rev" NGC, super sharp strike, deeply detailed incuse image of the portrait on reverse, lovely light silvery gold toning. Brockages are rare per se but almost never is one found in such a superlative state of preservation. Rare! Our estimate is a guess: if you want this, consider that it may be a unique opportunity (for the date).  
Estimate: \$1,500-\$2,000  
Starting Bid: \$1,500

Flan is 2 mm smaller than that of the other example. Brockages are rare per se but finding one so well preserved is a rare opportunity. Again, our estimate is a guess: if you want this, consider that it may be a unique opportunity (for the date) — and having both pieces even more so.  
Estimate: \$1,500-\$2,000  
Starting Bid: \$1,500

- 24038 George III Shilling 1817**, S-3790, KM666, MS66 PCGS, a superlative coin in terms of its preservation, boldly detailed with a crisp portrait and every tiny detail of the shield showing, undisturbed rich satiny luster, and gorgeous pastel silvery magenta-gold and blue iridescent toning. As wonderful as this shilling is visually, its most enchanting feature is what appears to be an uncatalogued overdate, with part of an 8 showing to the right of the 7 in the date. Overdate or not, this is a gorgeous coin! Candidate for a finest known Registry Set?  
Estimate: \$900-\$1,200  
Starting Bid: \$750

- 24039 George III Proof 18-Pence 1811**, S-3771, ESC-970, KM-Tn2, Military Bust, PR65 NGC, rich iridescent golden gray toning, the proof surfaces strongly in evidence. Very scarce so fine.

Estimate: \$1,750-\$2,500  
Starting Bid: \$875

**24049** George III copper Proof Bank of England Dollar 1804, S-3768 type, ESC-167, R4 version on thick flan, PR62 BN NGC, choice looking and quite pleasing.  
Estimate: \$1,250-\$1,750  
Starting Bid: \$1,000

**24050** George III silver Pattern Garter Dollar 1804, ESC-182, reverse features the royal crest within the Order of the Garter, AU58 NGC, mottled silvery gray toning. Strong evidence of an undertype Spanish 8 reales. Rare.

Starting Bid: \$2,750

**24051** George III copper Pattern Wreath Dollar 1811, ESC-206, 5 Shillings & 6 Pence, PR62 BN NGC, bronzed with slightly mottled surfaces but quite pleasing and choice looking. (Mis-identified on the grading insert as ESC-199, which would have the Britannia reverse.)  
Estimate: \$1,500-\$2,000  
Starting Bid: \$750

**24052** George III copper Pattern Wreath Dollar 1811, ESC-206, 5 Shillings & 6 Pence, PR63 BN NGC, in fact nearly a gem with original bronzed surfaces.

Starting Bid: \$750

- 24053 George III copper Pattern Wreath Dollar 1811**, ESC-206, 5 Shillings & 6 Pence, PR65 BN NGC, a super coin with light brown surfaces, evident mirrored fields, a real deluxe example — no coin was ever struck for commerce of this type, as the war against Napoleon ended, and the Crown reverted to its former value of 5 shillings.  
Estimate: \$2,250-\$2,750  
Starting Bid: \$2,000

- 24054 George III Crown 1819**, S-3787, KM675, LIX edge, no stops in edge lettering, clear date, MS62 NGC, bold strike, bright reflective luster, light hairlines and numerous tiny abrasions.

- 24055 George III copper "Hercules" Pattern Crown 1820**, by Droz after Monneron's French pattern by Dupre (of 1792), ESC-244, R2, a piece sometimes attributed to the reign of George IV, plain edge, PR62 BN NGC, heavily bronzed original surfaces the color of a Hershey's milk-chocolate bar. Very choice, in the cataloguer's opinion. A boldly struck and wonderfully engraved issue, dated the year of George III's death, suggesting that it might have been a pattern for the next monarch; others consider it a medal but it has long been sought after by collectors as a pattern for a crown. It was inspired by a smaller-sized pattern made in France circa 1791-92 by the firm Monneron Freres but never coined commercially as it was proscribed by French law of 1793 prohibiting the use of privately created patterns for money. Jean-Pierre Droz, a Swiss engraver of dies for coins and of plates for paper currency, copied the concept of the originals by Augustin Dupre and engraved the set of dies used to strike this pattern, for Boulton and Watt at the Soho Mint, Birmingham, where this was made. The imagery is seen as an enduring symbol of liberty in an age of tyranny — Hercules struggles to break the ties of bondage. It's a wonderful numismatic piece.  
Estimate: \$2,000-\$2,500  
Starting Bid: \$1,000

- 24056 George III copper "Hercules" Pattern Crown 1820**, by Droz after Monneron's French pattern by Dupre (of 1792), ESC-244, R2, a piece sometimes attributed to the reign of George IV, plain edge, PR64 BN NGC, lovely even chocolate-brown surfaces, moderately bronzed and showing faint red beneath, also having rich bluish hues. Slight disturbance of the surface at VIS in legend.  
Estimate: \$2,000-\$2,500  
Starting Bid: \$1,800

- 24057 George III gold Third Guinea 1797**, S-3738, KM648, MS65 NGC, bold strike, glorious luster and surfaces, a superb example of this type which almost invariably is found with wear or at best rub and disturbed luster. But not here! Candidate for finest known, and a treasure from the end of the 18th century. We've never seen one this fine before.  
Estimate: \$1,750-\$2,500  
Starting Bid: \$875

**24058 George III gold Half Guinea 1810**, S-3737, KM651, MS63 NGC, glossy luster.  
Estimate: \$800-\$1,000  
Starting Bid: \$400

**An Excellent Last-Year Guinea**

**24059 George III gold Military Guinea 1813**, S-3730, KM664, 6th Bust, MS63 PCGS, flashy luster, sharp strike for issue (the die engraving was shallow), light hairlines keeping it from a higher numerical grade. One of the best examples of this one-year issue we have seen in some time. Guineas of this year were struck with the intention of using them all to pay troops and to purchase supplies needed to fight Napoleon on the Continent, thus the coin came to be nicknamed the "Military Guinea" — and almost all known examples are well worn, often damaged, and otherwise indicate that soldiers and foreign banks used them. Mint State examples are fairly rare. After 1813, no more guineas would ever be minted. Remove this coin from harsh light, and its lush, glittering luster is even more evident. The bonus is that PCGS certified it.  
Estimate: \$6,500-\$7,500  
Starting Bid: \$6,000

**24060 George III gold Sovereign 1817**, S-3785, KM674, MS62 NGC, lustrous, a number of abrasions in the soft metal.  
Estimate: \$1,500-\$2,000  
Starting Bid: \$750

**24061 George III gold Sovereign 1818**, S-3785A, KM674, XF45 PCGS, much rarer than 1817.  
Estimate: \$2,000-\$2,750  
Starting Bid: \$1,000

**24062 Regal 19th-century silver medals lot:** George III, 1801 Illness Recovered, by Hancock, 38 mm, Eimer-928; George IV, 1821 Coronation, by Pistrucci, 35 mm, Eimer-1146b; William IV, 1831 Coronation, by W. Wyon, Eimer-1248; Victoria, 1839 Coronation, by Pistrucci, Eimer-1315. Each is brilliant, showing some hairlines and light handling but nicer than most seen. Eimer's catalogue value for EF comes to a total of £1,815 but that price reflects essentially perfect medals. These should be worth at least half that. (Total: 4 coins)  
Estimate: \$1,000-\$1,500  
Starting Bid: \$500

**24063 George IV, a lovely copper type set**, choice coins mostly brown but very pleasing, including: Third Farthing 1827, S-3827, RB UNC; Half Farthing 1830, S-3826, brown AU-UNC; Farthing 1827, S-3825, brown AU-UNC; Halfpenny 1826, S-3824, brown AU-UNC, some rolling flaws and diebreaks; Penny 1826, S-3823, brown AU. SCBC value is £940 taking the AU coins as EF, and these should be worth that as they form a desirable type set. (Total: 5 coins)  
Estimate: \$1,100-\$1,300  
Starting Bid: \$550

**24064 George IV Proof Farthing 1826**, S-3825, KM697a, Bare Head, PR65 BN NGC, bronzed and a beauty. Taken from one of the proof sets of this year, made for sale to aristocratic collectors of the day.

Starting Bid: \$300

- 24066 George IV Penny 1826**, S-3823, KM693, Bare Head, MS63 BN NGC, very choice with beautifully colored light brown surfaces retaining a little mint red, also having an excellent sharp strike. Estimate: \$700-\$900  
Starting Bid: \$350

- 24067 George IV Proof Penny 1826**, S-3823, KM693a, Bare Head, Bronzed PR64 BN NGC, a few tiny contact marks but still nice and choice. Also from the proof set of this year.

Estimate: \$1,000-\$1,250  
Starting Bid: \$900

- 24069 George IV Proof Shilling 1821**, S-3810, KM679, Laureate Head, reeded edge, PR64 NGC, a gem but for some unfortunate ancient abrasions in the field to left of the king's throat (and a few elsewhere), with nice reflectivity and bold details, as would be expected in a proof. From the rare Coronation set of this year.  
Estimate: \$1,250-\$1,500  
Starting Bid: \$625

- 24070 George IV Shilling 1823**, S-3811, KM687, Laureate Head, MS64 NGC, sharply struck with golden gray toning.  
Estimate: \$700-\$900  
Starting Bid: \$350

- 24071 George IV copper Pattern Halfcrown 1824**, ESC-641 (R4), Bare Head, plain edge, Bronzed PR63 BN NGC, seemingly undergraded, very choice in the cataloguer's opinion, the bronzing smooth and evenly colored a lovely chocolate brown, the strike fully detailed in every portion of the design. Very rare, and quite likely among the finest known.  
Estimate: \$1,750-\$2,500  
Starting Bid: \$875

- 24072 George IV Crown 1822**, S-3805, KM680.1, SECUNDO edge, AU58 NGC, slightest wear, boldly detailed, dappled silvery gray toning.

Estimate: \$6,000-\$7,000  
Starting Bid: \$5,750

- 24074 George IV gold Half Sovereign 1825**, S-3803, KM689, Laureate Head, MS63 NGC, even sharp strike on the shield and portrait, pleasing old gold color.

Estimate: \$7,000-\$8,000  
Starting Bid: \$6,000

**24076 George IV gold Sovereign 1829**, S-3801, KM696, Bare Head, MS63 NGC, sharp details, satiny luster. Rare date in this series.

## A Superlative George IV Pattern Crown

**24078 George IV Whiteaves Pattern Crown 1820**, by Mills for Whiteaves, date in roman numerals, ESC-259 (R3), L&S-7, in silver, PR64 NGC, beautifully preserved, one of the finest seen by the cataloguer over several decades, the surfaces nearly pristine, the strike showing virtually every tiny detail of the intricate engraving, glassy luster, and lovely light gray iridescent toning evenly distributed on each side. A gem for this pattern; among the finest known.

This extraordinarily imaginative pattern was engraved by the young George Mills (1792-1824), who earlier worked with Thomas Webb on the undated pattern crown for George III of 1817. Each coin clearly stands apart conceptually from most British designs. Here on this pattern of 1820, Mills portrayed the monarch with a large left-facing bust whose curly hair seems to flow in the wind towards whatever he is viewing, an image expressive of future potential, with a curtailed royal title surrounding and the date given as MDCCCXX below. On the reverse, Mills shows the regal crest with a squared shield, Hanover arms at center, crowned with a flowing mantle, and supported by a crowned lion and a unicorn shown in chains, under which are suspended the royal badges. The king's titles continue from the obverse around the reverse shield. The raised rims are sharply squared off, with the edge unmarked. Mills signed his work on the neck line of the portrait in tiny raised letters. The famous Whiteaves attribution appears in similar raised lettering along the rim at the bottom of the reverse. All in all, no engraver, Pistrucci included, ever created a more stunning pattern crown.

Estimate: \$20,000-\$25,000

Starting Bid: \$19,000

**The Artistry of Pistrucci in Gold**

- 24079 George IV gold Coronation Medal 1821**, by Pistrucci, Eimer-1146 (signed B.P. on each side), 35 mm, plain edge, PR63 Ultra Cameo NGC, a lovely example struck in extremely high relief, showing some faint abrasions on the intensely mirrored fields, the portrait all but untouched, with lovely gold color. The allegorical imagery is superb, depicting George IV seated and being crowned by the mythic Victory, while Britannia, Hibernia and Scotia bear witness; in the exergue, the date of coronation is given in Latin as July 19, 1821. The reverse legend, *PROPRIO JAM JURE ANIMO PATERNO*, translates as "Now In His Own Right With His Father's Mind" and serves to remind the king's subjects that he rules with divine right and continues the royal family line so long in place. The official coronation issue struck by the Royal Mint. Rare. The finest example we have auctioned. An awesome piece!  
Estimate: \$5,500-\$6,000

Estimate: \$1,000-\$1,250

- 24098 Victoria Proof Shilling 1887**, Young Head, S-3907, KM734.4, reeded edge, PR65 NGC, a gorgeous example of this last year of this style of portrait (and reverse design), as it was the Jubilee Year. Interested bidders might want to review our comments about the era of this mysterious piece by seeing Lot 24424 in our Sale #3016, January 2012 (online, go to HA.com and look at Auction Archives). An intriguing coin, and genuinely rare in any grade. Estimate: \$6,000-\$8,000

- 24101 Victoria gold Half Sovereign 1852**, Young Head, S-3859, KM735.1, MS65 PCGS, a gorgeous gem with shimmering satiny luster, the queen's portrait crisp in all details, the reverse shield fully struck except for two of the three tiny faces of the leopards in the bottom right portion, the large crown above showing every detail — all in all, a fabulous half-sovereign having wonderful gold color and just superb eye-appeal. Compared to the few other MS65s of this type we have seen, this rarer early date seems very tightly graded indeed. Although sovereigns are more popular, the half-sovereigns in high grade like this are rarer. If you are working on a registry set at PCGS, you will probably want to own this exquisite coin.  
Estimate: \$7,000-\$8,000

Just a fabulous coin!  
Estimate: \$4,000-\$5,000  
Starting Bid: \$4,000

- 24122 Victoria Pattern Florin 1848**, ESC-888, plain edge, PR64 NGC, most pleasing and really choice, with elegant iridescent toning. Alan Rayner (ESC) rated almost all of these patterns, of varying design and from muled dies, as R2, fairly scarce in any grade. But the key is, that rating does not consider grade rarity, so that R2 is for an average piece. In the last several years, choice pieces (PR63 on average) have sold for a little over \$2,000. Nicer quality, PR64-65, ranged to about 50% higher than that. We sold a PR66 recently for \$4,000 and we note another certified PR66 selling not long ago in London for £4,300. Eye-appeal accounts to a great extent for the varying prices.  
Estimate: \$2,250-\$3,000  
Starting Bid: \$1,125

- 24123 Victoria Pattern Gothic Florin 1848**, ESC-901, plain edge, PR64 NGC, even dark gray toning on obverse with a few marks in the field, reverse a joy with lovely golden gray iridescence.

Starting Bid: \$1,000

- 24124 Victoria Pattern Florin 1848**, ESC-902, plain edge, PR64 NGC, elegant silvery gray iridescent toning over reflective surfaces, a coin of superb eye-appeal.  
Estimate: \$2,500-\$3,000  
Starting Bid: \$1,250

- 24125 Victoria Pattern Florin 1848**, ESC-902, plain edge, PR66 NGC, the Laurel Bust mated to the reverse featuring a splendid Royal Cypher "VR" embellished with an interlinked rose, thistle, shamrock and Welsh plume; a superb specimen, fully original and having wonderful deep silvery golden toning on sparkling mirrored fields, the proof impression perfect, fully detailed. Each of the versions of these patterns is very scarce, but in this condition it becomes rare.  
Estimate: \$4,500-\$5,000  
Starting Bid: \$4,250

- 24126 Victoria Pattern Florin 1848**, ESC-903, plain edge, PR64 NGC, appealing silvery gray and iridescent blue toning, only very light handling, mirrored surfaces.

- 24131 Victoria "Godless" Florin 1849**, S-3890, KM745, clear W.W., MS65 NGC, an exceptional coin having satiny luster sheathed in deep pastel bluish golden gray toning, small portions of reverse not boldly struck. Very scarce in high grade, and almost never seen in "65" or finer.  
Estimate: \$1,000-\$1,500  
Starting Bid: \$1,000

- 24132 Victoria Gothic Florin 1852**, S-3891, KM746.1, MS62 NGC, frosty silvery white luster, bold strike. Very choice but for some faint hairlines, thus the "62" given to it.

Estimate: \$1,500-\$2,000  
Starting Bid: \$750

- 24136 Victoria Gothic Florin 1857**, S-3891, KM746.1, MS62 NGC, quite choice despite some faint hairlines evidently causing the "62" grade given, mostly sharp on reverse, the obverse bold, luster a rich satiny white with dark gray toning outlining the obverse legend and enriching the eye-appeal of the reverse — most pleasing to the cataloguer's eye, and suggestive of originality. Exceptional.  
Estimate: \$750-\$1,000  
Starting Bid: \$375

- 24137 Victoria Proof Gothic Florin 1863**, S-3891, ESC-821 (R5), KM746.1, plain edge, very rare, PR63 NGC, squared-off knife-edge rims, reflective surfaces a bit dulled by the somewhat drab golden gray toning which is subtly iridescent. This is a Proof of Record for the final year of this style having "brit" in the legend without the die number added in 1864. An important coin for the fancier of Victorian rarities.  
Estimate: \$4,000-\$6,000

- 24185 George V Penny 1918-KN**, S-4053, KM810, MS65 RB NGC, a great coin for this rare Kings Norton Metal Company date, the color fading brick orange-red but with no brown, the strike fairly sharp (some of the high-point details are the result of die-work, not striking impression), some abrasions but fewer than are normally seen on pennies of this reign, little specks of carbon on reverse but again far fewer than are normal. The important "KN" mint mark is really bold, as is the date. SCBC value for UNC is £1,250 (just about \$2,000 even), and this coin should be worth that price.  
Estimate: \$1,600-\$1,800  
Starting Bid: \$800

Starting Bid: \$900

- 24194 George V Proof Halfcrown 1936**, S-4037, KM835, PR65 NGC, brilliant with dappled silvery gray toning. Very rare. In 1800, Parliament passed the Act of Union; among its tenets was provision to strike a handful of proofs "for the record" each year, of each denomination, which were then sold to various museums in England and in the Commonwealth. No records have so far been located stating the exact number of pieces struck of each denomination and for each date from 1800 forward, but all are very rare. In the UK, these are often called Record Proofs, while in the USA the term Proofs of Record is popular. As is true of the other pieces in this original, matched 1936 set, this is a delightful coin with considerable eye-appeal, and far nicer than the average such proof.  
Estimate: \$3,000-\$3,500  
Starting Bid: \$1,500

- 24205 George V Maundy Presentation Set 1932,** S-4043 for type, but here are 28 coins, an actual Maundy Presentation Set, as personally distributed by George V on Maundy Thursday to the "poor" who lined up at Westminster Abbey. The red pouch is leather from an unborn lamb and the coins add up to the age of the monarch, as follows: 1 pence X 6, 2 pence X 6, 3 pence X 7, and 4 pence X 7, for a total of 67 years of age. The number of recipients would be the number of people equal to his length of time as King, 22 years. The coins may have been lightly cleaned at some time in the past, so might be said to grade English EF, but the story — the appeal here — is really the "lot," the coins with their leather presentation pouch and the historical ceremony that took its cues from Christ's washing the feet of the poor on the day before Good Friday. These full Maundy groups are seen only infrequently.  
*From The Ted Reams Collection.* (Total: 28 coins)  
 Estimate: \$750-\$1,000  
 Starting Bid: \$375

- 24217 Battle of Waterloo restrike gold Medal ND**, similar to Eimer-1067, 63 mm diameter, 6 mm thick, struck in 9-ct gold, virtually As Struck, in the Royal Mint's red plush case, with COA # 128, which describes this as the Battle of Waterloo 175th Anniversary Commemorative Gold Medal. Plain edge, hallmarked ADG 375 on the edge at the 12 o'clock position of the obverse. The COA from the mint explains as follows: the medal was produced from reductions of the original dies by Benedetto Pistrucci, made between 1819 and 1849; Pistrucci had been commissioned in 1816 by the Royal Mint to design a medal to commemorate the success of the allied forces at the Battles of Les Quatre Bras and Waterloo; his dies took years to complete and measured 137 mm, which the mint deemed too large to strike; the obverse alludes to the Treaty of Peace after Waterloo and features busts facing left of the Prince Regent (later George IV) of England, Francis II of Austria, Alexander I of Russia, and Frederick William II of Prussia, surrounded by mythical figures; the reverse shows two equestrian figures from antiquity, riding left, intended to represent the Duke of Wellington and Field Marshal Von Blucher of Prussia, with Victory flying between, Jupiter above, and finally a composition representing the Battle of the Giants forming the border, these being 19 figures tumbling from their assault on heaven, emblematic of the confusion of the defeated enemy of the allies at the end of 19 years of the Napoleonic Wars. An impressive piece indeed.  
Estimate: \$4,000-\$5,000

Complete Proof (or Prooflike) Restrike sets are very rare. We don't quite understand why NGC has graded the copper coins as Prooflike, and the silver coins as Proof, as all of the coins are Restrikes, and should be the same. (Total: 8 coins)  
Estimate: \$5,000-\$6,000  
Starting Bid: \$2,500

- 24260 George V 1912 Original Proof 1 Anna, KM513, NGC PR66.** A superb, sharply struck example with slightly streaky toning over fully mirrored fields. ALL Original Proofs of this series are extremely Rare.

*From The Ted Reams Collection.*

- 24261 George V copper-nickel Restrike Prooflike 4 Annas 1921 (C), KM519, Restrike Prooflike 64 NGC.** Flawless strike with fully mirrored fields and minor toning.

Estimate: \$600-\$800

Starting Bid: \$300

- 24262 George V Proof Restrike 8 Annas 1919B, KM-520. NGC PL 63.** Despite the grade, this coin is superb, with light hairlines on the reverse from the bit of lacquer that still remains. Some amazing prices are seen on these pieces at auction of late, as they are so difficult to find in Unc.

*From The Ted Reams Collection.*

Estimate: \$600-\$750

Starting Bid: \$300

- 24263 George V Original Proof 1919C 8 Annas, KM520, NGC PR65.** Lightly toned and Choice Again, a great opportunity to see, and perhaps own, an Original Proof, to get a better handle on what they are, and to spot the differences between Original and Restrike.

*From The Ted Reams Collection.*

Estimate: \$1,500-\$2,500

Starting Bid: \$750

- 24264 George V 1919C Original Proof 2, 4, and 8 Annas, KM-516, 519, & 520. NGC PR64 for the 2 and 4 Annas and PR63 for the 8 Annas.** We hesitated to put these together as it may take away opportunities of collectors who only collect one series, but with a bit of discussion we decided they should stay together in the hope that a 1 Anna could be found to finish the set. There is a double set of this date of Original Proofs in a box from the Calcutta Mint, so it is not unreasonable to believe that sometime in the next decade (or 2) this set can be completed.

*From The Ted Reams Collection. (Total: 3 coins)*

Estimate: \$2,500-\$4,000

Starting Bid: \$1,250

- 24265 George V 1911C 2 Annas, KM516, Moderately toned UNC,** Like all the 1911 Coinage, it is considered a 'type' coin due. The difference in the type relates to the elephant on the shoulder of George V, which some said resembled a pig rather than an elephant, giving this issue a unique place in Indian numismatic history.

*From The Ted Reams Collection.*

Estimate: \$500-\$600

Starting Bid: \$250

- 24266 1911C 1/4 Rupee, KM-517, Choice Frosty BU.** One of the key type coins of the British India series. Just to use as a comparison for the differences in catalogue pricing vs. 'real world' collecting. We know of 2 1911 1/2 Rupees selling for over \$5,000 each, quite a difference to consider. Purchased from Randy Weir in the early 1990's for \$75.

*From The Ted Reams Collection.*

Estimate: \$1,000-\$2,000

Starting Bid: \$500

- 24267 George V silver Restrike Prooflike 1/4 Rupee 1912 (C), KM518,** Restrike Prooflike 66 NGC. Exceptional bluish toning with no significant flaws. The rims are exceedingly wide on both the obverse, and reverse. NGC has listed this as (B) mint, but we feel that it is (C), as there does not appear to be a dot mintmark on the reverse.

Estimate: \$600-\$800

Starting Bid: \$300

- 24268 George V silver Restrike Prooflike 1/2 Rupee 1912 (C), KM522,** Restrike Prooflike 65 NGC. Deeply toned in shades of blue, and purple, over mirrored fields.

Estimate: \$600-\$800

Starting Bid: \$300

- 24269 George V silver Restrike Prooflike Rupee 1912 (B), KM524,** Restrike Prooflike 65 NGC. Lovely cobalt-blue and gold toning over mirrored surfaces with a bold strike.

Estimate: \$1,250-\$1,750

Starting Bid: \$625

- 24270 George V silver Restrike Prooflike Rupee 1920 (B), KM524,** Restrike Prooflike 64 NGC. Brilliant white surfaces with fully mirrored fields and a superb strike.

Estimate: \$1,000-\$1,500

Starting Bid: \$500

- 24271 George V Original 1911C Proof set, KM514 PR63, KM517 PR64, KM521 PR65, and KM523 PR63.** The thing that stands out in this set is the width of the rims, unlike any other Proof coins you have seen of India. The toning is light over very sharp, deeply-mirrored Proof surfaces. The grading is very conservative on this impressive set. I know of only one other set in a Calcutta Mint box. The key coin in this set is the 1/2 rupee which should bring bring over \$5,000 if sold as a single coin. We would hope the set would stay together, as this is one of only a few original 1911C Proof sets remaining intact.

*From The Ted Reams Collection. (Total: 4 coins)*

Estimate: \$7,500-\$10,000

Starting Bid: \$3,750

- 24272 George V gold Sovereign 1918-I**, KM525A, MS65 PCGS, light original toning with full mint bloom, very scarce in this superior designation.  
 Estimate: \$700-\$1,000  
 Starting Bid: \$350

- 24273 George V gold 15 Rupees 1918**, KM525, MS63 NGC, struck in yellow gold. A one year type that has seen dramatic price increases in the last few years.  
*From The Ted Reams Collection.*  
 Estimate: \$1,750-\$2,500  
 Starting Bid: \$875

- 24386 George V 1924 Proof 1 cent, 2 cents, and 5 Cents, KM12,13 and 14. Ex South Africa collection. The coins are quite toned with the 1 and 2 cent showing the strongest Proof characteristics with their polished fields. The 5 cent is not as obvious and should probably be called a Mint State coin. The South Africa mint traded out a lot of their Duplicate coins in the late 1970's and they had coins that had not been seen anywhere else. This is a classic example as I know of no other 1924 Proof coins. You will note a number of other coins in Colonel Reams collection that have the same source. He was astute enough to recognize the rarity even when the ascetics didn't quite match up. These coins in no way, were as well taken care of as other museums around the world.**

**24397 Felipe V gold 8 Escudos 1733-F, KM148, Cayon-10030, Calico-422, AU55 NGC, an exceptional example with superb original luster.**

Felipe V, King of Spain, known as Philip to most of the world, was born at Versailles on December 19, 1683. As the first king of the Bourbon dynasty (which rules Spain to this day), he inherited the kingdom from Charles II, who died without an heir. Felipe actually reigned twice, from 1700 to 1724, and then again from 1725 to 1746. He produced a considerable amount of diverse coinage, the best of which feature his armored bust, and flowing locks cascading down over his shoulder.

In 1732, the mintage of gold coins was changed at the Mexico City mint from the medieval style featuring a huge cross and the royal crest to the portrait type. The initial dates of 1732 and 1733 are very rare, with only the letter "F" being featured as the assayer's initial (this changed to "MF" in 1734). The specimen we present here is impressive both for its rarity and its quality.

Estimate: \$12,000-\$15,000

Starting Bid: \$11,000

**24398 Felipe V gold 8 Escudos 1741-MF, KM148, AU53 NGC, an attractive and original example with subtle rose gold patina in the legends and considerable mint luster. The design features are well-struck on both sides. Very scarce and desirable in this select quality.**

**24402 Ferdinand VI gold 8 Escudos 1747-MF, KM148, Calico 596, AU53 NGC**. As the fourth son of Felipe V, Ferdinand VI married Maria Barbara de Braganza, daughter of Joao V, King of Portugal and became King of Spain after his father's second reign in 1746 and remained in power until his death in 1759. Apparently, no gold 8 Escudos were coined in Spain, so the Iberian Peninsula was supplied with coins of this type by the American colonial mints, with the Mexico Mint being the main supplier. This first type was struck only in 1747 and features a larger armored bust of the King whose facial features are more crude than the subsequent types. The reverse is similar to those 8 Escudos of Felipe V. The specimen presented here is AU53 condition with a softer strike on the obverse, mainly on the lower hair and in very near mint state on the reverse with nice toning on the legend. An extremely rare coin that will certainly appeal to the most advanced collector.  
Estimate: \$20,000-\$25,000

SCOTLAND

- 24686 Robert III (1390-1406) gold Lion ND, Spink-5154, Heavy Coinage, VF25 NGC**, lots of even wear, no damage at all, and struck on a fairly smooth-edged and almost perfectly round flan, thus quite pleasing despite the lack of sharp detail. Very scarce.

One of the earliest gold issues of medieval Scotland, and the first collectible one, this piece was made of what was called *de bono auro*, or almost pure gold, and was intended to circulate valued at 5 shillings; and it did for a few years until its gold content was slightly decreased about 1403. No mint name or mark is given on these coins but it is believed that the "heavy lions" were struck at Edinburgh and Perth in fair numbers for about 14 years. The Middle Ages was a time of silver coins dominating commerce throughout Europe and the British isles until the English king Edward III began striking gold mainly for the purpose of facilitating trade with Flanders. Robert II in Scotland issued only silver. His eldest son, who had been born John, Earl of Carrick, and changed his name to Robert only upon his succession in 1390, began issuing his gold Lions almost immediately, having been impressed by certain French gold coins which he admired, the *Ecus a la Couronne* of the French king Charles VI. We see here, on the obverse, Robert's name and titles surrounding a crowned shield within which appears a lion rampant, and on the reverse is shown Saint Andrew crucified upon a saltire cross with a large Lis on each side (homage to the French model?), along with an inscription in abbreviated Latin which means "Christ Rules, Christ Conquers, Christ Commands." The imagery is a perfect summation of the medieval mind.

After Internet proxy bidding closes, live bidding will take place through Heritage Live!™, our bidding software that lets you bid live during the actual auction. Your secret maximum will compete against those bids, and win all ties. To maximize your chances of winning, enter realistic secret maximum bids before live bidding begins. (Important note: Due to software and Internet latency, bids placed through Live Internet Bidding may not register in time and those bidders could lose lots they would otherwise have won, so be sure to place your proxy bids in advance.)

#### ALGERIA

- 25984** **Coins & Tokens 57 Item Group**, Nine coins of Algiers include a choice (likely never circulated) KM 67 1/4 Budju of AH1244 as well as others in more typical grade dated AH1237, 1238 and 1245. Their smaller brother KM 74 1/8 Budju of AH1239 is EF with another dated AH 1237 in Fine. KM 85 5-Asper AH1254 is AVF, while an AH1223 of generally similar style to this overall series is VF but remains unattributed. Final coin shows O-R-A-N as an 8 Maravedis circa 1620 during Spanish occupation. 48 tokens or similar trading vehicles are also included. Perhaps most intriguing are two "brothel tokens". The first, with a prominent visage of a whiskered cat, likely different than those working within the advertised "cat house", is most unusual and appealing. A similar example, in similar VF with traces of handling, fetched about \$300 in the recent Baldwin sale where it was indicated to be "very rare". The second piece, from a competing establishment named The Arthemis, features a moon and a star plus the offer of discourse in either English or German, but without French being standard. Dana must have been intrigued as it is indicated as "very scarce" with a valuation of \$75 long prior to recent inflation. The third non-coin is a 37mm Masonic medal from Oran. The next is of an Oranian Cafe, declared as one of the greats of this universe, which sponsored this unusual 15-sided token. Casino chips for 5 and 20 units, probably post WW2, might have been wagered by the same individuals. Finally are 42 pieces of the various notgeld styles, many issued 1915 - 1922 with some dated. Quality is typical for the various items and attributions are approximate; **Sold as is, NO Return.**

- 26140 Tokens mostly 19th Century**, Brass issues number six and include some rather well-made and decidedly uncommon small issues. Federico Beltran's Oruro 1/2 Real has a nicely rendered Condor or Eagle. S. Jngnacio indicates usage as either a 1 Real (normally 12.5 Centavos equivalency) or 10 Centavos! - 26274 George V Sixpence 1920H**, KM11a, MS66 NGC. Undoubtedly one of the pieces that came out of the Heaton Mint in the mid 70's when their holdings came up for sale. Until then you could only find this coin in one of the Proof sets from 1920. Superb, frosty white surfaces. Not all coins from the Mint were Specimens or Proofs in the truest definition of the term, but, even without the proof-like surface, this coin was not made for circulation, which is part of the definition of a Specimen coin. Just a wonderful one year type.

- 26480 Carlos III gold 2 Escudos 1763-J Popayan,** KM36.2, AU Details NGC bent, boldly struck with considerable original mint luster, a few marks in the right obverse field and a wave in the flan, cause uncertain. Quite attractive despite the minor blemishes and scarce in this quality.  
Estimate: \$400-\$600  
Starting Bid: \$200
- 26481 Carlos III gold 2 Escudos 1767-J,** KM36.2, VF30 NGC, Popayan mint. A seldom offered early 2 Escudos type. With a decent portrait and problem-free.  
Estimate: \$500-\$700  
Starting Bid: \$250

- 26482 Carlos III gold 2 Escudos 1773-JS,** KM49.2, AU 55 NGC, Popayan mint, assayer "JS". An unusually choice example of this normally heavily circulated type. Clearly worthy of a strong bid.

Starting Bid: \$200
- 26484 Republic 10 Reales 1848,** KM107, XF45 NGC, Nueva Granada issue. Desirable red and silver toning. Strong reverse, often not true for this type. An exceptional example.  
Estimate: \$250-\$300  
No Minimum Bid
- 26485 Republic Peso 1871,** KM154.1, AU50 NGC, Bogota mint. Estados Unidos de Colombia issue. With original 1964 purchase ticket from Whitman Coin Co.  
Estimate: \$275-\$325  
No Minimum Bid

No Minimum Bid
- 26488 Republic 2 1/2 Centavos 1902,** KM190, UNC, a choice example. This is a most elusive one-year type struck for circulation in Panama shortly before the US-inspired rebellion which resulted in the construction of the Panama Canal. Produced at a private mint in Waterbury, CT.  
Estimate: \$600-\$800  
Starting Bid: \$300

**26489 Estados Unidos 5 Decimos 1886**, KM161.2b, AU53 NGC, one-year Medellin type with first A in PATRIA an inverted V. Minimal wear with the merest hint of clear gold.  
Estimate: \$500-\$550  
Starting Bid: \$250

**26490 Cartagena Siege 2 Reales 1813**, KM-D1, XF40 ANACS, virtually never encountered in this state of preservation.  
Estimate: \$225-\$275  
No Minimum Bid

**26491 Cartagena 1/2 Real Siege Coin 1812**, KM-D2, VF30 BN NGC, crude as always. Struck by the republicans as they were being besieged by the royalists.  
Estimate: \$150-\$200  
No Minimum Bid

**26492 Tokens including Countermarks**, Cartagena copper 29mm token with a masted ship, apparently of Manuel Marpla, is only 60% visible on its obverse and 10% on the reverse; it is noted as "very scarce and important". A rare 1844 Mompos copper Mitad has only a large surface on its opposite side. "Blanco" "Cuartillo" shows a serpent drinking from a fountain. Final three pieces are the typical silver one real, one dated 1828, and CuNi 5 Centavos 1888 with hacienda revalidations. Quality is typical for such issues which were heavily circulated; **sold as is, NO Return**.

**26494 Token "Mitad" Collection**, Assortment from a series quite popular in the homeland. The earliest dated piece is 1858 and most likely comes from that century. The host metal is usually copper or brass; one piece is oval. Quality is typical for the issues; **sold as is, NO Return**.  
*From The Dana Roberts Collection and Study Group.* (Total: 15 tokens)  
Estimate: \$300-\$600  
Starting Bid: \$150

**26495 Token Group of 19th Century**, Rio Hacha "UN CUARTILLO" with clasped hands forms a nice motif for a splendid Martinez 1878 copper issue. S P RIOHACHA is a small brass Un Cuartillo listed in Rulau at \$150 in UNC as is this example. Brass MONTERIA 1/8 Real is near mint state. Brass 2 Reales Paullada of 1873 has some field marks. Popayan's Trilladora Ordenez 23mm copper features a condor similar to issued coins. Square 29mm copper H. Gans (watchmaker) of Barranquilla is a most irregular style for tokens; this example is brilliant mint state. Final two are 2 1/2 Centavos, first of D. L. L. and the second an 1874 elaborate small brass of Hacienda San Jose Kuche. Quality in general is typical for the eras; **sold as is, NO Return**.  
*From The Dana Roberts Collection and Study Group.* (Total: 8 tokens)  
Estimate: \$200-\$400  
No Minimum Bid

**26496 Half Decimo & Half Dollar Pair**, KM 150.1 Bogota 1/2 Decimo 1868 AU55 ANACS is a well struck lightly toned example of an uncommon issue in nice quality. KM 186.1a Bogota 50 Centavos 1898 is now toning over its lightly scratched surfaces, which have been brushed (ANACS: details) but is AU55 for wear.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 coins)

## COMOROS

**26497 Sultanate 10 Centimes AH 1308-A**, KM2.1, UNC details, surface hairlines NGC, variety with fasces privy mark. Hairlines are minimal, this is a choice coin.  
Estimate: \$175-\$225  
No Minimum Bid

## COSTA RICA

**26498 Central American Republic gold 2 Escudos 1835-F**, KM15, VF-XF, mounted. Probably once a jewelry piece with somewhat burnished surfaces. Nonetheless quite scarce and seldom offered. AGW 0.1899 oz.  
Estimate: \$400-\$450  
Starting Bid: \$350

**26499 Republic Real 1847-JB**, KM65, AU details, surface hairlines NGC. Variety with backwards "B". Surface hairlines are minimal and perhaps should not even have been mentioned. Double-punched R for Real.  
Estimate: \$300-\$400  
Starting Bid: \$150

**26500 Republic Gold 1/2 Escudo 1851-JB**, KM97, AU55 NGC, strong detail on the Indian maiden leaning against the column. Normally flatly struck. This is a premium coin.  
Estimate: \$250-\$300  
No Minimum Bid

**26501 Token Trio of Special Issues**, Hacienda de la Guardia aluminum 10 Centavos and brass 20 Centavos are not in Eklund nor Schimmel; both are essentially as made and deeply well struck. It is at least possible these are "specimen" or "trial strikes". The third piece is an Escojida de Cafe 22.5mm copper of Eklund 1042 of the variety with C.R. below San Jose; see the write-up with lot 26772 in our Chicago April catalogue. This too looks to be a specimen striking. All are mint state or nearly so.  
*From The Dana Roberts Collection and Study Group.* (Total: 3 tokens)  
Estimate: \$200-\$400  
No Minimum Bid

**26502 Token 16 Piece Enticing Assemblage**, Numerous less-common tokens reside within this group. A June 1879 Santa Elena CuNi is most atypical for any country! An “elephant” token, a scalloped brass with large bee featured, a smaller brass with elaborate locomotive on both sides and no legends, a brilliant mint-state Railroad 10 Centavos, a Punta Arenas 10 Centavos which is perhaps silver and certainly rare, a copper La Union Mina of 10 Centavos is reportedly quite elusive, and a black vulcanite uniface 5 Centavos is unusual for Central American nations. A few others seem somewhat mundane but no such remark can be made about a copper flan about the size of the 1865- 1874 circulating coppers which is blank but looks heavily circulated except for its VERY clear impression of the official lion countermark used by CR around 1850 -1857. Do note the countermark on this piece, carefully hammered, is not the later 1889 style with small letters beneath the lion; this is not otherwise known to us nor was it to Dana. Quality is typical; **sold as is, NO Return.**

*From The Dana Roberts Collection and Study Group.* (Total: 16 tokens)

Estimate: \$300-\$600

Starting Bid: \$150

**26503 Token Quartet of Quality Brass**, Roberto Jimenez 20mm brass 1890 counter is quite brilliant. Second is Nanne & Aguillar 21.5 mm from San Jose of lovely delicate style; quite a delightful token. Double S intertwined at 90 degree angles on one side, and only a large value “2” on the other, is on a 22mm flan whose attribution is not certain. Last is a 29mm hexagonal Heredia piece of 10 Cajuelas. All four pieces are essentially “mint state” and quite attractive with somewhat reflective surfaces.

*From The Dana Roberts Collection and Study Group.* (Total: 4 tokens)

Estimate: \$200-\$400

No Minimum Bid

**26504 Token Quintet of Coffee Brass**, Almacen Gamboa is represented by two values, a 1/4 and 1/2 Real. Alejo Jimenez’s Hacienda de Colima, an Ausonia 10 Centavos, and a Hacienda de los Pintos thick 20 mm piece features a basket and a tree. All five are in nice circulated quality, easily VF or better.

*From The Dana Roberts Collection and Study Group.* (Total: 5 tokens)

Estimate: \$200-\$400

No Minimum Bid

**26505 Token Sextet of Appealing Brass**, Hacienda de Santa Rosa 18mm brass 1/2 Real 1864 of Toledo is well struck mint state which highlights its attractive plant motif. A uniface Cafe de Costa Rica brass 1/2 Real is also primo quality. Rulau Cto48 of Tinoco y Ca. from Verbena is all that this choice Fonrobert 7367 (1877 edition) 19mm brass piece shows. M J Zamora of Heredia issued a copper 10 Centavos in AEF. La Louisa Paras issued a small brass 1 Real showing F N Millet; Dana suggested a date in the 1850’s for this VF item. Sixth piece is a Brilliant Unc 22mm brass with “1”, possibly by Lauer, for Teodosio Castro of San Jose. Nice group.

*From The Dana Roberts Collection and Study Group.* (Total: 6 tokens)

Starting Bid: \$450

**26513 Quartet Interesting Tokens**, Eklund 1880, Rulau Mat33, brass 37mm One Peso of Hacienda San Cayetano in Cidra is impressive. A mint state 17.5 mm “white metal” 1/2 Real with only F.C. on the opposite side intrigued Dana; it is listed by Eklund, but in copper, as #218 and Henkle 18. Two nifty pieces from the now-famous Guantanamo are included: Rulau Ori50 at 28mm and Ori59 at just 16.3mm, both struck in CuNi. All easily VF-EF or better.

*From The Dana Roberts Collection and Study Group.* (Total: 4 tokens)

Estimate: \$300-\$600

Starting Bid: \$150

**26514 Octette of Brass Tokens**, Matanzas Yngenio Jesus Maria brass 10 Centavos of Eklund 1793 is mint state. Brass 32mm “Island of Cuba Plantation” is “Good for One Meal”. Rulau Hav88, Pesant 1303 has the bust of Spain’s Alfonso XIII. Three small brass items are well executed for local usage. Additionally, Holguin’s Post Exchange is a square 10 Centavos while Havana’s Santa Clara Battery is actually in aluminum (not brass). Interesting group in typical quality or better.

*From The Dana Roberts Collection and Study Group.* (Total: 8 tokens)

Estimate: \$200-\$400

No Minimum Bid

**26515 Tokens and a Proclamation**, Spanish American War 1898 token for 25 Cents in Trade at the USA Postal Exchange, 2nd Calvary, Santa Christina Barracks is a 24mm Aluminum. Louis Hudson sold this to Dana in 1995 as Rare and unlisted by Curto (who did know of the similar 5 Cents from Matanzas). Plantation tokens of 1884 precede ration tokens of 1886 and 1890. Santiago SL tokens of 1895 of two different denominations are followed by a Plaza de Armas Cafe 10 Centavos. A Havana Electric token is followed by a Proclamation copper of circa 1880 for Alfonso XII. Typical quality for eras; **sold as is, NO Return.**

- 26566 George V 25 Cents 1920H**, KM15, AU58 NGC, as with all the 1920H coins of the British Commonwealth, this is a difficult coin to find in nice condition with the change to .500 silver really effecting production. Quality seems typical for the era and attributions are tentative; **sold as is, NO Return.**

Final two coins are Krone 1957 and 1960 as a Danish State; both are EF. The well-known Thule-Kap York aluminum series is represented by a EF of the 5, 25 and 100 Ore sizes. The 1922 token series is represented by two examples of the 10 Ore and one of the 2 Kroner; these VF -EF examples are of the Kryolite Mining Company and also display a small polar bear. **27325 Token Specimens 1886 Costa Cuca**, Guadalupe La Ceiba above, and Costa Cuca below, a wonderfully-rendered Ceiba tree with date 1886 prominent. Reverse shows ALBERTO FLORES atop, and Repub. de Guat. below, with the denomination in the middle. The 2 Reales is 23.4mm and the 1 Real is 20.1mm. Both coppers are bright brilliant orange Uncirculated with a superb strike and stunning look. Possibly very rare and certainly desirable.

Estimate: \$300-\$600  
Starting Bid: \$150

**27326 Copper Centavo 1871 -1881 Countermarks**, Collection of various incused countermarks on the only mass-circulating centavo of the era, the one year emissions of 1871 (14 pieces of this host) and 1881 (only two examples included). Many local fincas used these coins for such purposes and lists exist of known varieties. Quality is typical; **sold as is, NO Return**.

Estimate: \$200-\$400

**27327 Tokens of Merit or Interest**, Accumulation of pieces chosen by Dana as being either scarcer or more interesting for any of several reasons. COMPANIA CHAMA issued an octagonal 1 1/2 Reales with a nice building and surrounding yard; unusual style and denomination ! A Francisco Sanchez & Hijo issue, somewhat like the British Honduras 1871 piece featuring a native Indian with headdress as on the USA Indian cent, has a central hole placed for stacking on a banker's wire ! Four of the pieces are on circulating coins and one is an imitation Carrera 1867 Real. Other items deserve review as well. Quality is typical for such issues; **sold as is, NO Return**.

**27328 Collection Tokens: Fincas & Ciudades**, This extensive collection covers the period from shortly after the middle of the 19th century extending forward almost one century. The token booklet of Odis Clark of San Antonio, sometime around 1975, inspired this collection to be further expanded. However since solidly proving attribution was often not possible, Dana was less aggressive with this single series starting about 1985; at that time he really attacked obtaining rarities in the token series for many others of his other 110 countries ! There are doubtlessly some special pieces in this group. There are some obvious duplicates as well and a few sets. Quality is likely equal or better than the norm for the series; attributions are still tentative and may be forever. **Sold as is, NO Return**.

**GUERNSEY**

- 27329 George V Proof 8 Doubles 1934H**, KM14 NGC PR66 Brown. Well struck with light caramel color. There was suppose to have been 500 of these struck with 'burnished flans' and given to the public. Trouble with coins going to the public is that the coins are rarely taken care of, and this explains the rarity of this coin today. With a mintage of 500, there would be degradation of the dies so the "burnished" flan was a nice way to describe the first and last coin off the die. BUT there are differences. There is no doubt that this piece is one of the earlier coins off the die and it went to someone who did handle it carefully. The Reverse has especially strong Proof surfaces and it has toned to a glossy caramel brown. *From The Ted Reams Collection.*  
Estimate: \$200-\$300

**HAITI**

- 27330 Tokens and a Fantasy**, Petet Goave Cercle de L'Union CuNi 20 Centavos is reported quite rare but certainly heavily used and soiled. Two International Casino tokens, nearly as made, of 5 and 10 units are included. The final item supplies a great fantasy, showing "Hayti" plus value "1" plus year "1779"; if only it were such a joy! **Sold as is, NO Return.**

**HAWAII**

- 27331 1883 25 Cents**, KM5, NGC MS63. Light golden toning with a sharp strike.  
*From The Ted Reams Collection.*  
Estimate: \$300-\$400  
Starting Bid: \$150
- 27332 A Quartet of Popular Coins**, Cent 1847, VF with some corrosion, 10 Cents 1883, Fine, 25 Cents 1883, Fine, 50 Cents 1883 VF/XF. Almost a complete type set. **Sold as is, no return lot.** (Total: 4 coins)  
Estimate: \$300-\$400  
Starting Bid: \$150

**HONDURAS**

- 27333 Token Pair of Railroads**, "Honduras Railroad" of San Pedro Sula is represented by a 20mm CuNi shown as Eklund 975 indicated as UN REAL. The second piece, previously unfamiliar to us but known to Kennedy, is a 31.5 mm 9.0 gram brass issue of 1.25 Pesos. First is VF and the second barely Fine.

Estimate: \$200-\$400

- 27334 Token Centavos Pair**, Rulau ELP-21 dated 1877 is a 20mm brass with the value shown only as "10"; it does seem well made for such an early local emission even if produced in Europe. Second is Rulau HON-5, also shown as Eklund 2237, a 24mm brass from the Burchard Fruit Company which features a pineapple; interestingly Rulau rates this at \$300. Both are Very Fine.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
Estimate: \$200-\$400

- 27335 Token "Debemos Portador" Half Reales**, Rulau does not list this rare RUATAN 23.2mm brass Half Real but it is vaguely related to his ILB-11 -12 -13 grouping. Dana conjectured that the McNabb Brothers might have issued this F. O. McN type. Grade is Fine. Second is P. A. Betancourt Cayo Yndes (sic: should have been Cayo Yngles ) 23.6mm brass which stands out among Rulau's listings due to his extraordinary \$600 evaluation. In our sale in April in Chicago, a single Honduras token exceeded \$1490 and all reached at least three figures. None of that could have been predicted based on Rulau's generally very low figures so the \$600 does seem special for this VF item.

- 27336 Tokens 1911 -1912 Half Reales**, Rulau Atl-8 and Atl-40 are very atypical since they show both a date and a denomination. One is from the municipality of Ceiba and the other from Teia. Both are easily Very Fine, arguably better.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
Estimate: \$200-\$400

- 27337 Token Se Recibe Half Real Pair**, Rulau Atl-14 was produced for Ceiba's Laffitte y Alvarez. Fine with a countermarked incused "M" carefully applied, this may be quite rare. Second is Rulau Atl-34 from Salado's (translates to "salt pit") Hirigoyen; this is quite "tidy" with a sailing ship on waves and nearly EF for wear. There must be at least two varieties of this as the word HONDURAS is not curved.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
Estimate: \$200-\$400

- 27338 Token Arcadio & Bazar Half Reales**, Rulau variety of his ELP-10 of El Paraíso. ARCADIA COBOS 18mm brass token 1/2 Real; style is clearly not modern and in fact quite "tidy" says Dana. Second is San Pedro Sula's Bazar Frances 21mm brass of Rulau Crt-39, likely from circa 1900 and in attractive EF quality.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
Estimate: \$200-\$400  
No Minimum Bid
- 27339 Token Small Oval & Large Aluminum**, Pittsburgh and Honduras Company of Puerto Cortez issued this oval brass 1/2 Real now in VF. Cuyamel Fruit Company issued the 32.2mm aluminum piece good for either 12.5 Centavos or Un Real (recall two bits is a "quarter", thus eight bits is a dollar, and there are 8 Reales to a dollar). This piece has obvious luster and likely was issued prior to 1920 making it quite special given its unusual characteristics.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
Estimate: \$200-\$400  
No Minimum Bid
- 27340 Token "Debo" Half Real Pair**, Rulau Atl-16 is a Norweb Collection 28.3 mm brass issue of Ceiba for Laffitte y Devaus in its original envelope. This is an impressive VF emission. Second is a rare piece obtained from the specialist Robert Kennedy; it is an AVF 24mm brass from Caratasca & Bonacca shown by Rulau under Grc-10.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
Estimate: \$200-\$400

- 27341 Token Pair “Bueno Por” Reales**, Rulau Atl-6 and Grc-5 appear to be earlier style brass issues which are denominated in Reales and feature a broader border than later style machine production. First is for Jose Ruiz y Ca of Bonito, a 21mm brass weighing 3.3 grams, which grades Fine+. Bonacca, from Guanaja, circulated this 1 Real for Kirkconnell Brothers; this 23.5 mm, 3.9 gram piece is a pleasing VF. Believed to be a rare pair.

- 27342 Coins, Tokens and Medals.** Two pieces from each category wrap up this collection for now. The “aspirant” 8 Reales 1856-1861 type is fun to examine, and the 1 Centavo 1902 changed to a “2” must have been viable somewhere in the outback. The 26.3mm octagonal token, with central hole, of Compania Industrial Ceibena from La Ceiba is actually quite interesting. Rather than 12.5 Centavos, you could get 12.5 pounds of cooling ice for this beauty!! The 34mm Aztec piece is in lead while the 1963 medal is looped. “La Casa El Porvenir 5 Centavos” is a 19mm aluminum with nearly full luster. Interesting mixture mostly in typical quality for such issues. **Sold as is, NO Return.**

- 27343 Puerto Cortez Aybar & Kuylene Pair**, Rulau Crt-15 is a 24mm CuNi piece denominated in Centavos rather than the more commonly observed Reales of most of this nation’s tokens. Being CuNi rather than brass is also unusual; this 12 1/2 Centavos example does have a small drill mark atop. Second is Rulau Crt-25 Un Real, also in CuNi; its size is about 19.4 mm rather than the 20mm indicated by Rulau, perhaps due to post-minting modification (perhaps not the case: certainly the base metal was not worth removing). Both are VF or so for wear. Do note lot 27547 in our recent Chicago auction where a related trio realized \$920.

## HONG KONG

- 27355 Ferdinand I gold Ducat 1848**, KM433, UNC details, damaged NGC, the damage is likely a mount mark at 12:00, but is not totally visible in the holder. Coin seems to be bent as well, yet a brilliant UNC example. This is the scarcer one year type with “SZ. Maria” in the reverse legend.

Estimate: \$300-\$350

Starting Bid: \$150

- 27356 Lot of Four Talers 1654, 1695, 1739 & 1783**, Grades range from F-XF, one has a mount trace. Four different rulers represented. A desirable quartet. **Sold as is, no return lot.**

## ICELAND

- 27357 Kroner Commemoratives of 1930**, Copper (appears almost brass) 2 Kroner and Silver 5 Kroner indicate their denomination on the edge (how novel is that?). These popular pieces feature standing local personages of the old era and note the 1000 year (millennia) anniversary from year 930 -1930; quality is EF or so. A token showing Rockville NCO, tradable for 5 Cents in "club currency", was expressly forbidden to be circulated within the mainland USA. Another VF piece is the zinc 25 Ore of 1942. *From The Dana Roberts Collection and Study Group.* (Total: 4 coins)

**27559 Tokens of the Malay Peninsular Areas**, Accumulation of issues, generally around 1850 -1900. CuNi and brass, as seems standard in most parts of the world for tokens of that time, predominate with at least one pewter and one tin and two coppers included for good measure. A semi- specimen quality Langkat Sumatra Tobacco Company 10 Cents from about 1890 is appealing. From the same area is a much larger brass 50 Cents in well circulated quality. A large CuNi uniface Kisaran "1 Dollar" dated 1888 is most atypical. Two nice Sumatra plantation tokens of 1/10 Dollar and 1/5 Dollar are labeled "1840's" but seem too well made to be of that earlier period. Of the remaining 10 items, perhaps most interesting is an 18mm circa-1900 brass 5 Cents of Tjinta Radja Estate; it is mint state except some heavy tarnish. Generally likely typical quality for the eras; attributions are tentative. **Sold as is, NO Return**.

The best of the nine coppers are a nice EF Grano 1755 and 5 Grani 1799; most interesting is a Fine Tari of 1786 featuring the head of John the Baptist being offered on a platter. Final are three unattractive 17th century coppers with countermarks and a circa-1900 well-worn aluminum music hall token with Victoria's bust. **Sold as is, NO Return**.

- 27707 Token 62 Item Assortment**, Low Countries 1546- dated "charity token" featuring a standing St. Andrew with a cross has exceptionally clear bold legends, "almost too good to be true". If truly 466 years old, and the copper does so appear, this must be exceptional for the era. An elaborately detailed and attractive hunting token, including fox and bird-in-tree on a "fox hunt", is from a siege in 1601- 1604. Other pieces among the lot are enticing while some are actually rather mundane. Many medals and sizes are included with most pieces likely in typical quality for their era.

**27754 Bluefield Pattern 1878 Token Pair**, Eklund 1011. Token 2 1/2 Cents dated 1878 by Bluefields' S. Parsons. A 20 mm specimen striking in Bronze (Dana wonders if it was supposed to be brass, really not so much different, on average, when in high quality) is accompanied by a very similar striking in "white metal". The copper weighs 4.1 grams while the other is but 3.2 grams. The copper is a lovely full deep strike with luster hugging the lettering and upon tilting into any light; the white metal (aluminum?) is clearly uncirculated, and hardly handled, but the strike was uneven and part of the outer legend is not clear. Years after obtaining this fine set which made him proud, Dana reported the specifics to the scholarly Alan Luedeking in August of 1989; his notes seem to indicate he saw no more thereafter.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
 Estimate: \$300-\$600  
 Starting Bid: \$150

**27755 La Guinea Token Set of Four**, Eklund 1010 A for Una Tarea on Hacienda La Guinea in Jinotepe, this 22mm brass type features a coffee plant and a basket. Whereas most examples seen seem to appear a light brown "brass" color, there are two other appearances on extra pieces in this set. One VF is dark and looks much more like normal copper; perhaps it is simply a bit dirty and somewhat circulated. The other of the standard variety with the tree measuring about 12mm wide is Almost Uncirculated and has the look of being "gilt"; Dana suspects such was purposefully done shortly after production in England sometime around 1850 -1870. A fourth piece which is well circulated, the much more elusive of two known dies, has a much taller but narrower and less-healthy-appearing tree and also a **REDEDED** edge rather than the standard plain edge one might expect. Although one of the country's most available tokens, this set is certainly not easily assembled.  
*From The Dana Roberts Collection and Study Group.* (Total: 4 tokens)  
 Estimate: \$200-\$400

**27756 Token Quintet of Scarce Issues**, Rulau CZO-13 is a CuNi 18.7mm emission of Hacienda Elvira in San Marcos (Jinotepe). Featuring a finely detailed tree, a bit like the Ceiba tree of the CAR from half a century earlier, this fully mint state item does have some carbon spots which should be attended to with TLC. A 21.6mm brass with a coffee tree is by Celemin Cafe and H. Prado de Y. Maliano. Better than VF for wear, it does have some surface marks and a scratch. Third, from Masatepe Nicaragua and dated 1895 is a 21mm zinc piece for Napoleon Tapia. 1/4 Real of Crisanto Brisena (sic) Diriamba is a crude 19mm brass/ copper issue. Fifth and final is a uniface 20mm brass piece with incused value 5 Centavos from Greytown for C.F. Bergmann. Quality might be typical but the middle three are well handled while the first and last are quite delectable. **Sold as is, NO Return**

 Estimate: \$200-\$400

**27757 Token 13 Item Accumulation**, This assemblage of a "baker's dozen" of mostly-early 20th Century tokens is rather abnormal for this small Central American nation. Reality might be that the few tokens issued in these lands are avidly sought by a handful of very intense and knowledgeable collectors. The first piece is among the most common of the country: produced by the Leon Water Company in 1885, it received official government sanction to circulate this copper 1.5 Centavo as national coinage. A much scarcer emission is Bluefield's Wilson and Belanger incused-design 5 Centavos; this CuNi piece is Eklund 1010 and Rulau Zel -12 indicated as rare and valued at \$100. Managua's Hacienda del Carmen is shown as Rulau Mga7 valued at \$90 in just Fine grade. Various of the remaining ten include Eklund 1016, Rulau Riv5 which much resembles a coin of the era. A sample of the well-known Hacienda La Guinea is Rulau Czo6. Rivas' 1925 David Morice is Rulau Riv8, a 25mm brass issue for 10 Centavos. One really odd-ball piece is a blank copper with some peripheral bordering and a incused volcanic countermark which Dana labeled "Nicaragua Hacienda". Two pieces are regular issue coins with countermarks: an 1878 Centavo has BA incused and an 1899 5 Centavos shows RGL. The other four are likely plated online. Quality is typical for the eras and attributions are tentative; **sold as is, NO Return**.

**27761 Coins, Tokens & Medals 74 Item Group**, Coinage numbers about 65 pieces beginning with 1728 and progressing through many of the styles until about 1933. One later item of potential significant value is a nice 50 Ore 1929 cataloguing \$600 in BU. Some other pieces of interest are the iron 2 Ore 1917 in VF and iron 5 Ore 1920 in EF. Even an Ore 1885 is included as well as 50 Ore of 1898 and 1901, both in EF. One Krone 1910 is easily above VF and scarce, while a nice Ore of 1912 and commemorative 2 Kroner 1914 are desirable. The group is topped off with nine little medals and tokens. Attributions are tentative and quality is mostly typical for the eras; **sold as is, NO Return**.

- 27765 Palo Seco Leper Colony 1 Cent**, KM-Tn-1. Brass 18mm issue with square 7mm central hole. Legends in English for the Leper Colony in the Canal Zone area. Rare and very popular due to its special nature. Very subtly bent but definitely better than Very Fine.  
*From The Dana Roberts Collection and Study Group.*  
Estimate: \$400-\$600  
Starting Bid: \$200

- 27766 Token Collection 5 Centavos, Second Portion**, Second portion of this remarkable and very appealing assemblage of mostly distinctly different styles and locales from this single most popular local token denomination. Six are incused designs on CuNi flans, three uniface and three struck-both-sides. Other half dozen are of more typical striking styles. Names readily visible include: J. Sucre (this particular example is choice mint state and perhaps a specimen or sample issue), Juan Arias David, Lum Chang Long, Roncallo, Rosa Funck (typesetting error?), S L Isaacs, S Soracco, Santiago Garcia, Wilson & Fitzgerald, Wing Chong Yuen (two renditions of this long-standing merchant: one is 21mm incused uniface and the other much later 19mm well-struck on both sides), and finally Zubieta & Pasos. Some emanate from the Canal Zone while some are outside it; none appear modern and several are likely quite scarce or rare. Quality is typical for the eras and attribution is tentative; **sold as is, NO Return.**  
*From The Dana Roberts Collection and Study Group.* (Total: 12 tokens)  
Estimate: \$500-\$1,000  
Starting Bid: \$250

- 27767 Tokens & Medals of Past Century**, Accumulation of various tokens and medals, mostly early to mid 20th Century. An earlier piece, dated 1878, is a thick copper award medal during the ESTADO SOBERANO DE PANAMA era. A nice Cafe Lata token indicates BOQUETE and La Esperanza Nemesio Ledesma. Osorio's Finca de Cafe is valued at 1/4 Lata. Isthmian Trading & Contracting Company is represented by 1/2 Pint and 1 Pint tokens. Several of these are likely quite scarce as Dana focused on this country for many years. Quality seems par for such items and any attribution is tentative; **sold as is, NO Return.**

- 27768 Token Collection 5 Centavos, First Portion**, First of two portions of this remarkable and very appealing assemblage of mostly- distinctly different styles and locales from this single most popular local token denomination. Six are incused designs on CuNi flans, three uniface and three struck-both-sides. Other seven are of more typical striking styles. Names readily visible include: A N Henriques, Alexander Hoskins, Antonio Zubieta (issues from Culebra and Colon are otherwise nearly identical incused design items), Domingo Vega, El Pasa Je, Field Brodie & Company (this is reeded edge 16mm **silver**), G A of Colon, Grand Hotel International (same design elements in two different metals: one brass is brilliant yellow, and the other nickel-plated brass or whatever), Henry de Lisser (this 20mm example is either choice brilliant UNC or a SPECIMEN striking), Henriques and Hijo (this is uniface whereas the A N Henriques above is struck on both sides and thus later emission), and Hotel Interoceanique. Some emanate from the Canal Zone while some are outside it; none appear modern and several are likely quite scarce or rare. Quality is typical for the eras and attribution is tentative; **sold as is, NO Return.**

- 27777 Arequipa & Cuzco Surface 2 Reales Duet**, KM 169.1 Cuzco 2 Reales 1837 BA AU50 ANACS details: cleaned. Accompanied by the other State of South Peru surface type issued for Arequipa in almost identical style but without assayer marks (this coinage is supposed to be about 2/3 fine silver but some pieces appear to be under 50% fineness). KM 169.2 Arequipa 2 Reales 1838 AU50 ANACS. Quite a nice pair of this very popular and attractively designed type. The coins have surfaces not much different than the other but the latter does have some natural flan fissures visible to the naked eye. Unusual chance to get the pair for easy comparison in similar quality.

- 27830 Ponce Specimen Token with Error Spelling**, Vale 10 Centavos of 1881 in Ponce, P. Rico is indicated on this lovely 26mm Copper well produced and likely mint state with red -orange luster in most devices. This "discovery piece", according to Dana Roberts, shows SAURI LUBIRA & COMPa as the issuer. The actual token which later circulated corrected the spelling error for the company owner's name and hyphenated it to show relationship: thus the correct legend is SAURI- SUBIRA. None of the other aspects were modified during the corrective phase. The specimen is in delightful mint state (Uncirculated, or Specimen Proof, as you wish) while the regular issue did circulate down to VF-EF and received a bit of abusive field marks on one side. Dana noted: Archilla-Diez 795, Vaia 552, Eklund 1954, Roehrs 94 and G&Higgle 440 (with correct S).

Next is an appealing pair of 1881 issues for Hacienda Sta Catalina of B. Borrás y Hermanos in Jayuya municipality. These densely detailed and well struck ZINC issues, an uncommon metal for coinage in that era, are of values 1/4 and 1/2 "D" and diameters of 15.1 mm & 17.7 mm. Dana notes Rulau JYY 3 & 2, Eklund 1955 & 1956, G&H 326 on both, Vaia 470 & 471, A D 517 & 518. Both are *mint state* except the zinc has lightly oxidized as one would expect. Likely very rare and special. The final pieces are a 1/2 Almud of Hacienda La Paz, mint state examples of the 1/4 & 2 Almud of Hacienda Vega- Redonda, and an attractive 31.5mm brass 25 Centavos of Cafetal Isabelita in Maricao Pto Rico. **28123 Coins, Tokens & Medals 168 Item Group**, Accumulation formed over about 40 years covering the issues emanating from the coinage, token and even medal spheres from about 1547 through each century mostly until about 1924. The premier of two odd inclusions is a Pommerania 48th Thaler of Charles XI with an **incused crown countermark** featuring a prominent letter "A" touching its lower sphere. Dana originally was convinced it was from Saint Barts in the Caribbean but could never prove such; the other likely possibility is some unidentified Swedish community in the Baltic. The item looks quite old and very original; its quality is easily adequate for students to research. Second atypical item is a 7.7 gram silver medal of Carol XII in 1706 with the arms of Saxony; it is nicely toned EF. There are 106 other tokens and medals whose focus is well distributed among potential towns and events. The section of 60 coins begins with 8 items from before 1675 including a pleasant well-circulated 2 Marks of that year. Later era coinage includes some high-quality minor coins. Attributions are tentative and quality is typical for the eras; **sold as is, NO Return**.

The best Confederation items seem to be a Franc of 1936 in gem Uncirculated, 5 Francs 1925 in just Fine+, half Franc 1916 UNC and 1905 Franc in A.Unc. An interesting group. The final 32 items may include some of what are technically "tokens" but are more likely to be classified as medals or store cards; about half the obvious medals are pre-1900. Quality is likely par for such issues; attributions are tentative. **Sold as is, NO Return.**

- 28174 Coin, Token, Medal & Amulet 115 Item Lot**, Crimea War Medal of the Ottoman Empire from about 1857 (AH 1279) is holed for suspension; it was struck on a flan possibly of coinage origin. There are about 33 coins of the Ottoman Empire period and four more modern. A small portrait medal for the 1909 coronation of Ottoman Emperor Mohamed V is interesting as is a 20 Para brass token boldly dated 1861 for the British and Smyrna Club. Seven local-locale tokens of various levels of appeal follow. Then seven Ankara NCO club tokens of three different denominations seem to form a set; these are likely post WW2. Finally there are 61 pieces loosely classified as tokens or medallions; these might have been produced for sale to the public in the bazaar and possibly used as amulets or decorations. Several are holed and they occur in various metals; their numismatic value is suspect. Quality is typical and attribution is tentative; **sold as is, NO Return.**

Starting Bid: \$175
- 28197 Leper and Later Tokens**, Lazareto 1/8 Bolivar 1913, a 16mm brass piece produced for the Leper Colony in Maracaibo, shows extensive exposure and thus its surfaces are lightly blistered.. A related 5 Centimos dated 1916 is nearly as made with luster but also a speck of dirt. The third item, again related but from 1939, is denominated 0.125 Bolivares (an eighth of a Bolivar, and thus 250% of the face value of the very similar 1916 item. That is an indication of the inflation which occurred post World War One) and is in lustrous high quality. Final is an octagonal brass "Vale 1 Bolivar" of Concesion Jesurun which also has lovely lustrous surfaces and very little wear. Wonderful little Quartet representing much history.  
*From The Dana Roberts Collection and Study Group. (Total: 4 tokens)*  
Estimate: \$200-\$400  
No Minimum Bid
- 28198 Token Sextet**, Bronze 1/4 Real pieces dated 1856, featuring a dog, and another dated 1864, featuring a Montalban cock, are followed by a Guama 25mm brass 2 Reales which Louis Hudson considered rare. A circa-1870 brass 20mm piece shows Arvelo Lapato Austria on one side and 1/4 Real within wreath on the other. Final two are CuNi 1 Real, one of Federico Briceno Leon and the other of Bonfante from Cafe Espagnol Caracas. Quality seems typical; **sold as is, NO Return.**  
*From The Dana Roberts Collection and Study Group. (Total: 6 tokens)*  
Estimate: \$300-\$600  
Starting Bid: \$150
- 28199 Tokens of Hacienda San Jose Pair**, L. Perez Bustamante, apparently located near Macaria de Orituco, and his Hacienda San Jose are represented by two nice CuNi pieces. The first is a 22mm "Vale 2 Reales" and the other a 16mm 1/2 Real. Quality of the larger is nearly as made but surface a bit stained and in need of some TLC. Dana indicated Rulau did not list this and Stohr did not list the 2 Reales denomination. The 1/2 Real is a nice VF-EF and is plated by Garriga.  
*From The Dana Roberts Collection and Study Group. (Total: 2 tokens)*  
Estimate: \$300-\$600  
Starting Bid: \$150
- 28200 Token Pair with Incused Details**, Hacienda ISCARAGUA is represented by a 23mm CuNi (or pure nickel) with VALE DOS REALES. San Rafael's J M Villanueva Sampayo put the denomination at "Vale 1/4 Real" on his 17mm CuNi emission; it is similar to Eklund 2403. Both easily VF.  
*From The Dana Roberts Collection and Study Group. (Total: 2 tokens)*  
Estimate: \$300-\$600  
Starting Bid: \$150
- 28201 Atypical Incused Design 1893 Large Token**, Stohr FL24 is a Hacienda La Herminia CuNi 32.5 mm piece which indicates its value is guaranteed at 5 Reales, apparently by W. Casado in 1893. Although bold for detail, the surfaces do have some evident friction. This is the first large format such piece we recall.  
*From The Dana Roberts Collection and Study Group.*  
Estimate: \$200-\$400  
No Minimum Bid

**28202 Tokens of 1/4 and 4 Reales**, Caracas colonial standard 1/4 Real, its final date digit uncertain but likely pre-1817, has a deeply incused F F O near its obverse center. Second is a lightly cleaned 28mm brass 4 Reales of the Hacienda Turumo run by the Gomez Brothers. Quality is typical.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
 Estimate: \$200-\$400  
 No Minimum Bid

**28203 Token Pair of Impressive CuNi**, Haciendas de Guaracarumbo of Federico N. A. Hellmund sponsored this high quality and attractive 27mm CuNi piece of Una Medida. Second interesting token is a CuNi 22 mm "1 Almud" dated 1905 from Luis F Mueller's Hacienda El Cedral and the Oficina de La Soledad. Both are in nice quality, the first with much luster.  
*From The Dana Roberts Collection and Study Group.* (Total: 2 tokens)  
 Estimate: \$300-\$600  
 Starting Bid: \$150

**28204 Token Pair of Small Brass**, J L Gorrondona of Cocotero issued this impressive 18mm brass (but with much copper in its mix) 1/2 Real with a fruit tree with large berries or fruit visible. The tree side is very sharp while the other is a bit etched from exposure. Second is a 1923 dated copper of 18mm from CENTRAL TACARIGUA in Valencia with a nicely rendered view of the works. Denominated as 12.5, almost certainly Centimos as that was the currency unit of that era, this unusual piece has some luster traces and is EF- AU or better.

# Terms and Conditions of Auction

## Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., or Heritage Auctions, Inc., or Heritage Numismatic Auctions, Inc., or Heritage Vintage Sports Auctions, Inc., or Currency Auctions of America, Inc., as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the "Auctioneer"). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

## Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
  - Fifteen percent (15%) on, Currency, US Coin, and World & Ancient Coin Auctions Lots. Beginning with Auctions closing after July 31, 2012 the Buyer's Premium in Currency, US Coin, and World & Ancient Coin Auctions will be 17.5%.
  - Nineteen and one-half percent (19.5%) on Americana & Political, Arms & Armor, Civil War & Militaria, Comic, Manuscript, Movie Poster, Space Exploration, Sports Collectibles, Texana, Wine, and Gallery Auction (sealed bid auctions of mostly bulk numismatic material) lots;
  - For lots in all other categories not listed above, twenty-five percent (25%) on the first \$50,000 (minimum \$14), twenty percent (20%) of any amount between \$50,000 and \$1,000,000, and twelve percent (12%) of any amount over \$1,000,000.

## Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

## Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

## Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

## Bidding Options:

8. Bids in Signature. Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at HA.com/common/howtobid.php.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-443-8425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments.

Current Bid.....	Bid Increment	Current Bid.....	Bid Increment
<\$10 .....	\$1	\$20,000 - \$29,999 .....	\$2,000

\$10,000 - \$19,999 .....	\$1,000		

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

## Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid", THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.
14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40-60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (approximately 50%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 1-800-872-6467.
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

## Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes "good funds": checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot.
25. Lots delivered to you, or your representative in the States of Texas, California, New York, or other states where the Auction may be held, are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. (Note: Coins are only subject to sales tax in California on invoices under \$1500 and in Texas on invoices under \$1000. Check the Web site at: <http://coins.ha.com/c/ref/sales-tax.zx> for more details.) Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount or three percent (3%) of any installment that is past due. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 10% seller's commission, if assigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 10% seller's commissions, if sold at an Auctioneer's auction.

# Terms and Conditions of Auction

29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale. In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.
31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

## **Delivery; Shipping; and Handling Charges:**

32. Buyer is liable for shipping and handling. Please refer to Auctioneer's website [www.HA.com/common/shipping.php](http://www.HA.com/common/shipping.php) for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.
33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.
34. All shipping charges will be borne by the successful Bidder. On all domestic shipments, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file (carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature) or delivery by Heritage to Bidder's selected third-party shipper. On all foreign shipments, any risk of loss during shipment will be borne by the Bidder following Auctioneer's delivery to the Bidder's designated common carrier or third-party shipper.
35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.
- 36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay or failure to obtain any such license or permit does not relieve the buyer of timely compliance with standard payment terms. For further information, please contact Ron Brackemyre at 800- 872-6467 ext. 1312.
- 36B. Auctioneer shall not be liable for any loss caused by or resulting from:
- a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
  - b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles
37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

## **Cataloging, Warranties and Disclaimers:**

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions.
39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

## **Release:**

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.
44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or inconsequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

## **Dispute Resolution and Arbitration Provision:**

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.
46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.
47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.
48. Dispute Resolution for Consumers and Non-Consumers: Any claim, dispute, or controversy in connection with, relating to and/or arising out of the Auction, participation in the Auction, award of lots, damages of claims to lots, descriptions, condition reports, provenance, estimates, return and warranty rights, any interpretation of these Terms and Conditions, any alleged verbal modification of these Terms and Conditions and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation shall or any other matter: a) if presented by a consumer, be exclusively heard by, and the parties consent to, exclusive in personam jurisdiction in the State District Courts of Dallas County, Texas. THE PARTIES EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY. Any appeals shall be solely pursued in the appellate courts of the State of Texas; or b) for any claimant other than a consumer, the claim shall be presented in confidential binding arbitration before a single arbitrator, that the parties may agree upon, selected from the JAMS list of Texas arbitrators. The case is not to be administered by JAMS; however, if the parties cannot agree on an arbitrator, then JAMS shall appoint the arbitrator and it shall be conducted under JAMS rules. The locale shall be Dallas Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. Any party on any claim involving the purchase or sale of numismatic or related items may elect arbitration through binding PNG arbitration. Any claim must be brought within one (1) year of the alleged breach, default or misrepresentation or the claim is waived. This agreement and any claims shall be determined and construed under Texas law. The prevailing party (party that is awarded substantial and material relief on its claim or defense) may be awarded its reasonable attorneys' fees and costs.
49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.
50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid or arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.
51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

## **Miscellaneous:**

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

# Terms and Conditions of Auction

## Additional Terms & Conditions:

### COINS & CURRENCY

**COINS and CURRENCY TERM A:** Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-8726467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

**COINS and CURRENCY TERM B:** Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (1-800-872-6467) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

**COINS and CURRENCY TERM C:** Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

**COINS and CURRENCY TERM D:** Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcg.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

**COINS and CURRENCY TERM E:** Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

**COINS and CURRENCY TERM F:** Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

**COINS and CURRENCY TERM G:** Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

**COINS and CURRENCY TERM H:** Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

**COINS and CURRENCY TERM I:** Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

**COINS and CURRENCY TERM J:** All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

**COINS and CURRENCY TERM K:** Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

**COINS and CURRENCY TERM L:** Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

**COINS and CURRENCY TERM M:** NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

**COINS and CURRENCY TERM N:** For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

**COINS and CURRENCY TERM O:** Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.

# HERITAGE AUCTIONS

HA.com

Dear Bidder:

It is once again my pleasure to welcome you to Heritage's 2012 Long Beach Sale of Ancient Coins. This sale features our largest offering of Ancient Coins to date, more than 1,100 coins in this catalog alone. Including the Shoshana II sale of Judaeen coins on Wednesday, Sept. 5, Heritage will be offering roughly 1,700 lots of Ancient coins worth an estimated \$2-3 million this week—a measure of how far Heritage has come as a purveyor of Ancients in a very short time!

The huge success of our Shoshana Collection of Ancient Judaeen Coins in New York City last March 8-9 has drawn widespread attention. As a result, Heritage has received consignments of several fine collections, and the fruits of this rich harvest can be readily seen as you turn the pages of this catalog. This sale features a full spectrum of Ancient coins covering all the major categories and price ranges, so collectors of every stripe should find something of interest.

Highlights from this sale include:

- A selection of Greek silver tetradrachms from the collection of the late Kim Werner, a Toledo, OH attorney who was a true connoisseur in a number of areas. Assembled over a 25-year period from circa 1978 to 2002, his collection was relatively small (27 coins) but uniformly beautiful, with each coin carefully chosen for strike, centering, surface quality and artistic excellence.
- An academically fascinating offering of coins from the R.G. Collection, with an emphasis on so-called "barbaric" or imitative coinages of the Ancient World. In each case the collection contains an example of a famous "prototype," such as an Alexander the Great gold stater, and a series of Ancient imitative coins derived from the original. The result is an interesting examination of the "gray area" between so-called barbarism and Classical civilization.
- An extremely rare Macedonian silver octadrachm of Getas, king of the Edones circa 500-478 BC ( Lot #24875), with an inscription including the Greek word nomisma, or "coin," probably the first recorded use of this term in all history.
- An recent "discovery" piece – an early Ionian electrum hekte of circa 660 BC with a three-letter Greek inscription, probably the first-ever inscribed coin (Lot #24985).
- An impressive offering of Roman Imperial gold aurei and solidi, including a magnificent aureus of Claudius, ex Biaggi Collection (Lot #25193); a Judaea Capta aureus of Vespasian (Lot #25202); an ex-Boscoreale aureus of Titus as Caesar (Lot #25210); a beautiful aureus of Trajan (Lot #25218); a spectacular Commodus aureus (Lot #25236); two rare mint state aurei of Severus Alexander (Lot #25246 and Lot #25247), and wonderful gold solidi of Constantius II, Valentinian I and Valens (Lot #24905, #25283, and #25284).
- A rich vein of Byzantine gold, including three rare solidi of Justin I and Justinian reigning jointly (Lot #25304 to #25306), three exceptional "portrait of Christ" solidi by Justinian II (Lots #25328, #25330 to #25331), and three solidi of the Empress Irene with her unfortunate son Constantine VI (Lots #25333 to #25335).

Please note that our Internet-only Final Session for Ancient Coins, scheduled for Monday, Sept. 10, is also included in this catalog, containing more than 600 coins estimated at \$200-1,000. A little patience in going through these individual and group lots will surely pay off!

We are now accepting consignments for our auction at the New York International Numismatic Convention, January 6-7, at the Waldorf Astoria in New York City. The NYINC is the most important annual convention in Ancient and World coin fields, drawing collectors and dealers from all over the world. With the Ancient Coin market daily setting records for important, pedigreed pieces, the NYINC presents an outstanding opportunity to bring your collection to market at a high-profile venue. Please call me at (310) 492-8615 or email me at DMichaels@HA.com to tell me about your collection. As always I would love to hear from you!

Veritas et vita,

## The Dale Sigler Collection of Ancient Coins

A respected Hollywood cinematographer, the late Dale Sigler became interested in collecting Ancient Roman and Greek coins in the early 1960s. He enjoyed researching each new acquisition, as well as sharing his discoveries with his friends. He was a founding member of the Southern California Ancient Numismatic Society (SCANS) and was chosen as President of the organization. He was also a member of the Society of Ancient Numismatics (SAN) and was a regular contributor to the SAN journal. His interests were wide-ranging, including both Greek and Roman coins. Many of his acquisitions came from his close friend and coin dealer, Harold Donald.

## The Kim Werner Collection of Ancient Greek Coins

The late Kim Werner was born in Eau Claire, Wisconsin in 1944. He made a very successful career as a real estate attorney in Toledo, OH, which enabled him to pursue his passion for collecting across a broad spectrum. A lover of classical music, he assembled an impressive collection of antique sheet music, music boxes, and more than 4,400 CDs. Antiquarian books, French and English art, and gemstones also numbered among his collecting interests. He retired 12 years ago, allowing him to devote his full time and energy to his collections. He became an expert in each field and was very discriminating in his acquisitions, which shows through clearly in his collection of ancient Greek coins.

## The JG Collection

The consignor of The JG Collection grew up in the Midwest and began collecting when he was just 10, some 70 years ago. His collection grew and grew, spreading from United States coins to Ancients, World, tokens, medals and other exnumia. Eventually, he settled on Ancient coinage as his specialty, as it offered him the ability to delve deep into the history and academic research he so enjoyed, but his United States and World coins are just as impressive. When Heritage picked up the collection, every single coin was meticulously cataloged and neatly tucked away in small 2 x 2 envelopes, many of which were marked from landmark auctions from the mid 1950s! Wrapping up an amazing collecting career is not easy, but the consignor has decided that it is time to let others enjoy the coins he has treasured for so long.

The consignor's professional life includes proudly serving in the United States Army during WW II, attending law school, earning his master's degree, and having his own law practice in the Midwest for over 50 years. He has been married to the same "hometown gal" for 58 years. They have two grown children, one of whom is his law partner, and two grandchildren.

### CELTIC

#### Epona or Andarta?

- 24852** CELTIC GAUL. Northwest Region. The Redones. Ca. 2nd century BC. AV stater (21mm, 8.04 gm, 9h). Large laureate head of Apollo right of slightly Celticized style / Naked female rider on horseback right (Epona or Andarta?), holding a shield in left hand and a spear in right hand, grain ear before, lightning bolt below. DT 2082-2084. BN 6757. Hucher "l'Art gaulois" pl. 53. Extremely rare. Good Very Fine.

Ex Vinchon (20 December 2006), lot 356; Collection Numismatique d'un amateur d'art (Vinchon, 29 October 2002), lot 34.

The horseback rider on the reverse of this extremely rare stater appears to be female, a distinct departure from the usual Celtic imitation of the Philip II Apollo / biga types. At least one scholar identifies the rider as Epona, a Celtic goddess who protects horses and guides souls into the afterlife. However, Epona, who was later worshipped throughout the Roman Empire, is usually shown in a less militant pose than seen here, so the figure may instead be Andarta, a Gallic war goddess later adopted by the Iceni in Britain as Andraste, and invoked by the warrior queen Boudica during her revolt against Rome.

Wreathed head of Persephone left; crescent behind / Charioteer driving fast biga left; A and IEPΩNOS below. Carroccio 80. BMC 515. Very rare symbols. Well-centered. Sharply struck from fresh dies and possessing brilliant luster. A stunning coin! Fleur de Coin.

*Hieron II was a military adventurer who claimed descent from the Syracusan tyrant Gelon. He fell in with the army of Pyrrhus during his great Western expedition of 280 BC. When Pyrrhus pulled out of Syracuse in 275 BC, Hieron remained behind as commander of the garrison. He cannily married Philistis, daughter of a prominent Syracusan noble, and a major victory against the Mamertines in 270 BC convinced the grateful populace to name him King. He reigned for the next 55 years with strength, intelligence and justice, and Syracuse prospered. His coinage in bronze and silver is plentiful and is closely patterned on other Hellenistic coinages, particularly that of the Ptolemaic Kingdom. His gold is quite rare and follows Syracusan tradition, with the wreathed head of Persphone on this lovely piece recalling the coinage of Agathocles.*

Estimate: \$7,000-\$9,000

Starting Bid: \$3,500

*From the Mayflower Collection.*  
*Ex Superior (10-11 December 1993), 1647.*

*This coin is a famous type featuring an elephant, the animal used by the great general Hannibal Barca to bring the Second Punic War over the Alps and into Rome's backyard, and a mysterious and quite distinctive laureate head. The head has been variously described in the literature as a depiction of Herakles-Melqart, a Semitic deity inherited by the Carthaginians from their Tyrian mother city, or Hannibal in the guise of the god. Modern scholarship, which tends to be suspicious of early claims to see portraits in images of gods, tends to interpret the head as that of Herakles-Melqart. However, the distinct physiognomy of the nose and other facial features, as well as the sideburns, seem to suggest an attempt at portraiture. In such a case it is difficult to avoid the possibility that Hannibal is actually depicted here - remarkable considering that no other portraits of the great Carthaginian general survive from his lifetime.*  
 Estimate: \$8,000-\$12,000  
 Starting Bid: \$4,000

## Incredible Archaic Rarity

Kraay, *Archaic and Classical Greek Coinage* (Methuen 1976), pl. 26, 483, (British Museum example), same dies. Extremely rare, one of only two or three known specimens, and missing from most public and private collections. Well struck from dies of remarkable Archaic style on a broad, heavy flan. Good Extremely Fine.

Ex Egger Collection (A. Tkalec AG, 27 October 2011), lot 25.

*This exceedingly rare Archaic issue of the little-known Edones tribe in northern Macedon is remarkable on a number of levels. The Edones lived east of the Strymon River near Mount Pangaion and claimed descent from their founder Edonos, grandson of Ares. While their origins and early history remain shrouded in mystery, we do know they formed alliances with other Thraco-Macedonian tribes to preserve their identity against the encroaching Macedonian Kingdom to the south and Persian Empire to the East. The allies also adopted a regional coinage with a common weight standard and similar designs. This coin also marks the first time the word **nomisma**, or coin, was utilized in any form. All of these coins were considerably larger and heavier than other Greek and Persian denominations, pointing to the rich silver deposits in the region; in fact these Archaic coins could also be viewed as stamped silver ingots. All known coins of the Edones are in the name of King Getas, whom Kraay suggests is a "slightly younger contemporary of Alexander I of Macedon" (498-454 BC). Kraay also surmises that this exceedingly rare type, with a remarkable obverse inscription translating as "a coin of Getas, King of the Edonians," is the earliest Edones coinage and was struck to pay Persian tribute between 513 and 479 BC. The Decadrachm Hoard's downdating of the Thraco-Macedonian octodrachm issues to after the battle of Plataea and the discovery of contemporary fractions have challenged this hypothesis. It is now believed Getas and other Thraco-Macedonian tribal "kings" struck their coins to assert their independence from the Macedonian Kingdom, which was moving to fill the vacuum in the region caused by the expulsion of the Persians.*

AV stater (18mm, 8.62 gm, 2h).** Uncertain Eastern or Levantine mint, ca. 325-301 BC: Helmeted head of Athena right, helmet ornamented with leaping griffin / ΑΛΕΞΑΝΔΡ[ΟΥ] ΒΑ - ΣΙΑΕ[ΩΣ], Nike standing left, holding wreath and stylis; mint marks [Φ and thunderbolt] off flan to left. Unrecorded; cf. Price 3998 (uncertain East, stylistically similar). Reverse slightly double-struck, otherwise lustrous Good Extremely Fine.

*Although not listed in Price, a few Alexander staters from this die paring have appeared on the market in recent years. The presence of the leaping griffin on Athena's helmet and the royal title on the reverse indicate a mint in the East, such as Babylon, or the Levant. The most distinctive feature is the extra lock of hair from the far side of Athena's head, visible below her chin. Most of the recent examples are struck from a heavily worn obverse die; this specimen is nicely struck from relatively fresh dies.*

## A Selection of Imitative Alexander the Great Staters

- 24912 MACEDON OR THRACE. Imitating Alexander III the Great (336-323 BC). AV/PB fourrée stater (20mm, 9.06 gm, 1h).** Head of Athena right, wearing Corinthian helmet ornamented with "radiate" coiled serpent / Nike standing left, holding wreath and stylis; blundered legend to right, trident head to left. Cf. Price 172 (Amphipolis). A fascinating imitation, apparently made with a lead core covered with gold foil (accounting for heavy weight). Extremely rare. Extremely Fine.

*From the R.G. Collection. Ex CNG 61 (25 September 2002), lot 427.*

*A highly unusual imitative issue, likely struck in the Thracian tribal regions circa 330-290 BC. This coin was reportedly found in small hoard of Alexander staters that included a number of imitations. Unlike most fourrées, it's also not lighter than the official coin it copies but heavier. This likely indicates a lead interior, though it's slightly larger than official Alexander staters. It also appears to be coated with thin gold foil rather than thicker gold plating that's more common with gold fourrées. A tiny part of the foil is loose near the rim on the obverse at 7:00. A minority of ancient Greek-era gold fourrées were covered in thin gold foil, sometimes in multiple layers, instead of thicker gold plating.*  
Estimate: \$1,000-\$1,300

Estimate: \$400-\$600  
Starting Bid: \$200

- 24914 Imitating Alexander III the Great (336-323 BC). AV/AE fourrée stater (18mm, 5.74 gm, 12h).** Imitating a stater of "Unknown Greece or Macedonia" mint. Head of Athena right wearing Corinthian helmet, ornamented with coiled serpent, pushed back on head / ΑΛΕΞΑΝΔΡΟΥ, Nike standing left, holding wreath and stylis, insect (ant or scarab beetle?) in left field. Cf. Price 831. Rare. Two small breaks in gold plating revealing copper core; otherwise Very Fine.

*From the R.G. Collection.*

*Alexander fourrée staters are known to have been created using two methods, with gold foil or gold leaf. With the first, thin sheets of gold foil were wrapped around the planchet, burnished down, and hammered into place. With the second, thinner gold leaf, perhaps in multiple layers, was applied and burnished down or applied over a mercury solder and heated, burning off the mercury.*  
Estimate: \$600-\$900  
Starting Bid: \$300

### Choice Stater of Philip III

- 24915 Philip III Arrhidaeus (323-317 BC). AV stater (19mm, 8.56 gm, 9h).** Babylon, ca. 323-318/7 BC. Head of Athena right, wearing Corinthian helmet ornamented with coiled serpent / ΦΙΛΙΠΠΟΥ, Nike standing left, holding wreath and stylis; ΑΥ below left wing, M below right wing. Price P178. Lustrous. Minor ding in obverse field, otherwise Choice Extremely Fine.

*Born ca. 359 BC, Arrhidaeus was the illegitimate son of Philip II, king of Macedon, by a Thessalian dancer. According to Plutarch, a poisoning attempt by Philip's jealous wife Olympias left Arrhidaeus mentally retarded and subject to epileptic fits. When Alexander the Great died in Babylon in June, 323 BC, a council of generals met and determined that Arrhidaeus would be crowned as Philip III, and would reign jointly with the infant Alexander IV. However, neither had any real power, this being held by a succession of Macedonian generals. The new king proved as compliant and simple-minded as the generals had hoped, but in 320 BC, Arrhidaeus married a niece of Philip II's, Eurydice, who had more than enough ambition for the both of them. In 317 BC, she threw her support behind Cassander's successful bid to replace Polyperchon as regent. Cassander, in turn, left her and Arrhidaeus in charge of Macedon while he went on campaign in Asia. Polyperchon joined forces with Alexander's mother Olympias and invaded Macedon. Eurydice and Philip raised an army to oppose them, but their soldiers refused to fight. Arrhidaeus and Eurydice were captured; Olympias ordered Arrhidaeus to be executed and compelled Eurydice to commit suicide.*

*This rare tetradrachm type was issued following the Macedonian revolt against Roman rule led by Philip Andriscus in 148 BC. LEG refers not to Roman legions or legates (generals), but to the term Legatio, or embassy: After Roman legions crushed the army of Andriscus, a Senatorial embassy (signified by the hand holding the olive branch) attempted to establish equitable peace terms with the Macedonians. The combination of Greek and Latin lettering and terminology points to the dual nature of this limited coinage.*

*The iconography of these coins is sometimes described, sensationally, as a satyr ravishing a nymph or with similar language that suggests struggle, sexual abduction, and violence. Given the centrality of the cult of Dionysus to the area, a more likely explanation is that the two mythological figures are engaged in a ritualistic Dionysian dance. Ann-Marie Knoblauch describes the satyr as embracing the nymph who raises her hand between the two of them, and though she doesn't willingly accept his sexual advances, she merrily dances along with him. The smile on the nymph of some early specimens and the nymph holding the satyr's neck on the later varieties gives credence to such an interpretation.*

*From the R.G. Collection.*

*There is still considerable controversy over whether Athens ever "officially" issued silver tetradrachms of silver-plated copper, or "fourrées." The technique of silver-plating a copper coin was widely used by ancient forgers, but these coins were unofficial counterfeits and merchants often tested coins for purity with test punches and chop marks, commonly found on early Athenian "owl" tetradrachms. In the latter years of the Peloponnesian War, Athens' once bulging treasury emptied of silver and the government resorted to many expedients to stretch the money supply. In two plays he wrote at the turn of the fourth century, the playwright Aristophanes makes derogatory references to changes in the Athenian coinage and refers to the new coins as "redheads," or "coppers." Combined with hoard evidence that at least some plated owls are die-matched to official issues, some scholars have concluded that the Athenian government resorted to issuing plated coins as an emergency measure. Certainly plated "owls" are commonly found and many closely resemble contemporary "official" issues in style; however, the "owl" coinage was ubiquitous in the Greek world and widely imitated (see the following selection of imitative types) with both pure silver and fourrée issues. Though hardly definitive, the weight of evidence suggests that at least some plated tetradrachms were "officially" issued; most surviving examples, however, are probably contemporary counterfeits. The style and fabric of this piece would seem to indicate it is one of the official "emergency" issues.*

- 24960 ASIA MINOR or SYRIA. Imitating Athens. Ca. 430-410 BC. *From the R.G. Collection.*

*This plated tetradrachm is almost certainly a contemporary counterfeit, as opposed to an official "emergency" issue. The style is quite "eastern" and it is likely the counterfeiter used locally produced "owls" minted in Asia Minor, Syria and Phoenicia as the prototype.*

## A Selection of Imitative "Owls"

- 24961 SYRIA or MESOPOTAMIA. Imitating Athens. Ca. 331-310 BC. SNG Copenhagen Supplement 1245 (same obverse die). Van Alfen (2004/2005) 64 (this coin). Rare. Good Very Fine.

*From the R.G. Collection.*

*This particular coin was part of a hoard documented by Peter van Alfen in his article "A New Athenian 'Owl' and Bullion Hoard from the Near East," in the 2004/2005 American Journal of Numismatics. This thick-flanned coin features an Athena whose image is evocatively made up of simplified lines and curves, and the ethnic on the reverse features a delta instead of an alpha as its first letter. The frosty surfaces of this beautifully evocative coin exhibit very little wear.*

## Rare Depiction of the Labyrinth

**24974** CRETE. Knossos. Ca. 450-375 BC. AR stater (25mm, 10.99 gm, 2h). Head of Ariadne left, wearing earring and necklace, hair rolled and bound with corn-wreath / Meander-pattern Labyrinth, five pellets in center, incuse square punch in each corner; all within shallow incuse circle. Slight weakness at high points of obverse, otherwise an attractively toned Extremely Fine.

According to legend, the Cretan artisan and scientist Deidamos built the Labyrinth on orders from King Minos, who needed a place to keep his wife Pasiphae's monstrous son, the Minotaur. Pasiphae had fallen in love with a beautiful sacrificial bull and the half-man, half-bull Minotaur was the result of her cross-species passion. The Latin poet Ovid, drawing from tradition and oral history, said Deidamos built the Labyrinth so cunningly he nearly trapped himself within its winding passages. The Minotaur was placed at the center and Minos ordered that seven youths and seven maidens be sent by Athens, then subject to Crete, each year as a sacrifice offering to feed the beast. The Athenian hero Theseus volunteered as one of the victims and, with the help of Minos' daughter Ariadne (depicted on the obverse of this piece), smuggled in a sword, which he used to slay the Minotaur, and a ball of twine to help him navigate the Labyrinth. The Labyrinth soon became the very symbol of Crete and is shown on the reverse of coins struck by Knossos, its largest city and Minos' capital. Some coins show the Labyrinth in a circular form, while others, such as this early example, depict a series of interlocking meander patterns. Archaeologists have found considerable evidence that the Labyrinth was not entirely mythical. Sir Arthur Evans proposed that the huge, sprawling Minoan palace complex of Knossos would have been viewed as an inescapable maze by anyone from backwards mainland Greece; more recently, an underground warren of tunnels and caves, some natural and others man-made, has been explored under Gortyna, providing another strong candidate for the Minotaur's home.

*From the R.G. Collection.*

*The iconography and dating of this coin type has been much debated by numismatists. The portrait is thought by some to depict the most realistic portrait of Alexander the Great on late posthumous Lysimachus-type staters and by others, such as SNG Cop., to depict what may be a portrait of Mithradates the Great instead of Alexander the Great. There's also debate over when and by whom this and similar Lysimachus-type staters from Istrus and Byzantium were minted. Some believe they were minted by Brutus ca. 44-42 BC to pay mercenaries during the Roman civil war following the assassination of Julius Caesar. Others believe they were minted earlier by Mithradates the Great, ca. 88-86 BC. The former is the more plausible attribution. The unevenness of the coin's surfaces, evident on all of these coins, was caused by die rust. The dies used to strike these coins were likely left over from the time of Mithradates the Great, about 40 years before this coin was struck.*

### Earliest Inscribed Coin?

- 24985 IONIA. Uncertain. Ca. 660 BC. EL hecte (8mm, 2.35 gm).** Blank field with Greek inscription ΑΘω(?) around upper edge / Rectangular incuse punch with raised linear lines. Unrecorded, but cf. Linzalone 1012 (typeless hemihecte). Excessively rare, one of only two specimens known. Very Fine.

According to most experts, electrum coins with a blank (or typeless) obverse field represent the earliest attempt at coinage in Lydia and Ionia, dating to around 670-660 BC. This effort evolved into the invention of an obverse design, starting with simple striations, and the first true coin (see Heritage sale 3015, lot 23123). However our understanding of this series has recently been revolutionized by the discovery, from a British collection, of an electrum blank hecte with an obverse Greek inscription, a great and significant surprise. A second similar example was found in a European collection. Although superficially similar to other known "blank" issues, the edge of this hecte (and the similar known example) display at least two and possibly three letters — likely an Α (alpha), an archaic squarish form of Θ (theta), and possibly an ε (eta, lowercase). The interpretation suggests a connection to the famous "owl" coins of Athens, but the earliest "owls" appeared more than 130 years after the likely date of our hecte. More likely the letters represent an abbreviation of a personal name (such as the famous "Walwet" and "Phanes" EL coins of Lydia and Ionia) or possibly a dedicatory inscription to the goddess Athena. In any case what this humble electrum piece seems to represent is extremely significant: The first coin of any description to carry an inscription, likely struck at least 35 years before the issues in the name of Phanes (ca. 625-610 BC) and Walwet (610-560 BC).

Unlike the Alexander-portrait tetradrachms of Lysimachus and Ptolemy I, this tetradrachm type of Seleucus I was issued in relatively small numbers and is not commonly seen in today's numismatic marketplace.*

*These pieces were first struck under Ptolemy II (282-246 BC), a brilliant ruler who built the famous Library of Alexandria and towering Pharos lighthouse. In 279 BC he married his sister, the beautiful and ambitious Arsinoë, in the manner of the old Egyptian pharaohs. To mark the occasion, he introduced the largest gold denomination yet seen in the Greek world, the mnaieion, so called because it was worth one mina (100 drachms) of silver, an enormous sum in ancient times. The typology of this dynastic gold issue celebrates the divine status of the deceased Ptolemy I and his wife, Berenike I, and by allusion, the divine status of the living sibling gods, Ptolemy II and his sister-wife Arsinoë II, as well.*

*Founded by the Emperor Trajan on the border between Moesia Inferior and Thrace, Augusta Traiana was provided with a strong set of city walls which figure prominently on its coinage. This splendid large bronze provides architectural details of the city gateway, which included three tall crenellated towers, each with its own set of arched doorways and windows, flanking the central portcullis. Fortifications such as these, only rarely featured on Roman coins of the first and early second centuries, became far more prevalent as the Empire came under unceasing attack from circa AD 162 on; by the Tetrarchic era, the "camp gate" had become the dominant reverse type.*

Diademed head of Philip I right / Zeus seated left on throne, holding Nike and scepter; monogram to left; Δ (date) in exergue. McAlee 5b. Prieur 5. HGC 9, 1360d. Rare. Good Extremely Fine.

*Q. Caecilius Bassus, a supporter of Pompey, seized the province of Syria in 46 BC after inciting a mutiny in the army of Sextus Caesar, Julius Caesar's cousin, who had been governing Syria since 48 BC. Bassus obtained help from the Parthians and managed to hold out in Syria for two years, withstanding several sieges from generals sent by Caesar. After the Ides of March in 44 BC one of the assassins of Caesar, L. Cassius Longinus, arrived in Syria and induced Bassus to turn over his province. His final fate is unknown. The rare coinage bearing his monogram and dated to the fourth year of the Caesarian era (46/5 BC) was only recently identified.*

Good Extremely Fine.

Ex Gemini IX (9 January 2012), lot 262.

*Despite being perhaps the worst of all Roman emperors, Caligula's Roman Provincial coinage is interesting and attractive. As he had few, if any, real accomplishments to tout, his reverse types place great stress on his blue-blooded lineage. His detailed portrait on this rare tetradrachm of Antioch seems to hint at his cruel, capricious nature; the reverse depicts his mother, the firebrand Agrippina the Elder, wife of Germanicus, whose agitation against the regime of Tiberius earned her exile and death. One of Caligula's early acts was to travel to the tiny island of Panditeria, where Agrippina had starved to death during her exile, and return to Rome with her ashes to be interred in the Augustan mausoleum.*

## Julius Caesar's Uncle

**25100 L. Julius L.f. Caesar (103 BC). AR denarius (17mm, 3.92 gm, 6h).** Rome. CAESAR, helmeted head of Mars left; above, pellet above L (retrograde) / L. IVLI. L. Well centered on a typically compact flan. Extremely Fine.

*L. Julius Caesar was one of the most prominent members of the gens Julii before the rise of his nephew, the Dictator Gaius Julius Caesar. He was governor of Macedonia in 94 BC and consul during the Social War, when he passed the basic law which offered Roman citizenship to the Italian allies. After his consulship he attained the pinnacle of the Roman Republic, the Censorship, and helped to enroll the first new Italic citizens enfranchised by his law. An opponent of Marius, he was killed on the latter's return to Rome in 87 BC. He was also grandfather of Mark Antony.*

## Marius in Quadriga

**25101 C. Fundanius (101 BC). AR denarius (18mm, 3.80 gm, 5h).** Rome. Helmeted head of Roma right; O behind / C. FVNDAN in exergue, Triumphator (Gaius Marius, Cos. V) holding laurel branch in quadriga right; behind it, young rider with laurel branch; above, Q. Toned. Good Very Fine.

*Although not listed as any great rarity, the denarius of C. Fundanius is surprisingly difficult to find in decent grade. This is frustrating to many collectors because it is the only Roman Republican issue to plausibly depict the great Roman general Gaius Marius, seven times Consul. The reverse depicts a Triumphator in his chariot; this could either be Marius or his colleague as consul, Quintus Lutatius Catullus, who were awarded a joint Triumph for the smashing Roman victories over the Cimbri and Tuetones in 102-101 BC. Since popular opinion at the time and modern historians give far more credit to Marius than Catullus for these victories, Marius is more than likely depicted on the coins of Fundanius.*

*For two centuries, Rome had spurned the Hellenistic practice of placing the ruler's portrait on the coin of the realm, much as they rejected the concept of kingship altogether. So early in 44 BC, many Romans must have been stunned to see the image of Julius Caesar, recently appointed dictator for an unprecedented fourth time, on circulating silver denarii. Like a profusion of other honors and titles, the right to place his image on coins had been bestowed on Caesar by the Roman Senate. Caesar's enemies may have had an ulterior motive in approving the honor, as it almost certainly would fuel the growing suspicion that Caesar intended to name himself king of Rome. If this was the intent, it succeeded, for within three months a conspiracy had been formed and Caesar was duly assassinated at a meeting of the Senate on March 15, 44 BC.*

*This interesting reverse records the heady days when Augustus' two stepsons, Tiberius and Drusus, began the Alpine campaign which aimed to bring all of Germany under Roman control. The scene depicted on the reverse above shows Drusus and Tiberius presenting victory laurels to Augustus for subjugating the tribes occupying the foothills of the Alps. This was to be the staging ground for a gigantic flank attack that would conquer all of Germania to the Elbe and Weser Rivers. A series of campaigns by Drusus 12-9 BC seem to have accomplished this; however, the death of Drusus due to injuries suffered in a freak riding accident in September of 9 BC was a setback which cost the Romans dearly and eventually lost them control of "free Germany" east of the Rhine.*

*Ex Numismatica Ars Classica 49 (21 October 2008, lot 139); ex Biaggi Collection, privately purchased in 1954.*

As the son of the great general Drusus and Antonia, niece of the emperor Augustus, Tiberius Claudius Drusus seemed well-positioned for greatness when he was born at Lugdunum, Gaul in 10 BC. But a serious childhood illness left him with a limp, a stammer, and other uncouth qualities that made him the black sheep of the Julio-Claudian dynasty. While these problems barred him from a political career, such exclusion also granted him immunity from the family's murderous intrigues and he managed to survive the bloody reigns of his uncle Tiberius and nephew Caligula while most of his relations perished in unpleasant ways. Upon Caligula's assassination in January, AD 41, Claudius was the sole surviving Julio-Claudian male and, when members of the Praetorian Guard found him cowering behind a curtain in the palace, they immediately acclaimed him as Emperor. Claudius astutely awarded the Praetorians a substantial bonus, and with 10,000 heavily armed soldiers backing him, he easily forced the Senate to accept him as the next princeps. Once installed in power, Claudius surprised everyone by ruling with intelligence and moderation. During his formative years, Claudius had devoted himself to scholarly studies and playing the "fly on the wall" in the halls of government, all of which served him well. In AD 43, he ordered the invasion and annexation of Britain, the first major addition of territory to the Empire since the days of Augustus. He chose provincial governors carefully and managed foreign relations with considerable skill. He erred only in his obsession with detail, his reliance on freedmen and cronies, and his atrocious taste in women. Messalina, his promiscuous third wife, ran wild as Empress and nearly brought down his regime with a sex-crazed conspiracy in AD 48. His next wife, Agrippina the Younger, used her wiles to enhance her own power and advance Nero, her son by a previous marriage, in the succession arrangements. This done, she fed Claudius a dish of poisoned mushrooms in October, AD 54 and brought his 13-year reign to an end. Despite many missteps and his unsavory demise, Claudius had been a fairly successful ruler and his regime set a pattern for the Flavians and the reigns that followed.

The unusual personification of Constantia (steadiness, courage, steadfastness) on the reverse of this beautiful gold aureus was first used on Claudius' first gold coinage in AD 41 and revived in several subsequent years. It no doubt contrasts his even-handed rule with the capriciousness of his predecessor Caligula.

According to tradition, the doors were kept open in wartime and closed during times of peace. The closing of the Temple doors was a rare event, even during the Pax Romana. ## Exceptional Titus Aureus

- 25210 Titus as Caesar (AD 69-79). AV aureus (20mm, 7.30 gm, 6h).** Rome, AD 72-73. T. CAES IMP VESP PON TR POT, laureate head of Titus right / VIC AVG, Victory standing right on globe, holding wreath in outstretched right hand. RIC (Vespasian) 367 (R). Calico 798. Rare. Boldly struck and lustrous, with a magnificent portrait and light reddish "Boscoreale" toning. An exceptional specimen. Choice Extremely Fine.

*Likely from the Boscoreale hoard of 1895.*

The elder son of Vespasian, Titus Flavius Vespasianus was born in AD 41 in a disreputable quarter of Rome and seemed marked out for the life of an upper middle-class civil servant. He distinguished himself as a military tribune in Britain and Germany before becoming his father's second in command for the Judaeen campaign of AD 66-69. With his father's bid for empire successful, Titus took over direction of the Judaeen war, which culminated in the storming of Jerusalem in AD 70. Returning to Rome, Titus was granted a stupendous triumph. When Vespasian died in AD 79 and Titus was proclaimed emperor, he soon emerged as an uncommonly benevolent and conscientious ruler. When the eruption of Vesuvius destroyed Pompeii and Herculaneum, his generous relief measures won wide admiration. The historian Tacitus called Titus the "darling of the human race." However, his reign was destined to be brief. Titus was observed to weep at the games opening the Colosseum in mid-AD 81 and took seriously ill shortly thereafter. He died on September 1 at the age of 40. His brother Domitian, capable but far less affable, succeeded him.

While not usually included in the Judaea Capta series of coinage, the "Victory of the Augustus" proclaimed on the reverse of this splendid aureus can be none other than the costly triumph over Judaeen rebels in the First Jewish War. In fact Titus is shown still wearing his light "campaign beard" as though he'd just returned from the field. The triumphal procession for the campaign had taken place in AD 71, the year previous to this coin being struck. However, a small band of Jewish rebels held out in the fortress of Masada until AD 73, when the general Flavius Silva finally took the stronghold only to find that its defenders had committed mass suicide.

Marcus Ulpius Trajanus is widely hailed as one of the greatest of all Roman emperors. His 19-year reign was marked by military exploits that pushed the Roman Empire to its greatest extent, by judicious good government that extended a helping hand to the lowest classes of society, and by friendly relations with the Senate which set the tone for the next three reigns. Indeed, the perception of the second century AD as a second Roman Golden Age owes a great deal to the personal qualities and foresight of Trajan himself. This stunning gold aureus, struck during Trajan's Parthian campaign in AD 113-114, depicts the emperor wearing the armor of a general. The reverse refers to his anticipated "Fortunate Return" from the field. However, Trajan was destined to die in the East as the exertions of his reign finally caught up to him.

*Trajan excelled in civilian government, where he showed a sound paternalism and understood the importance of public works. But he was a warrior first and foremost. His conquest of Dacia in AD 102-105 can still be followed on the spiral reliefs of Trajan's Column, seen on this spectacular denarius. The difficult conquest brought an enormous windfall of plunder into the Roman economy and made possible the construction of his enormous new Forum, where Trajan's Column was erected and still stands.*

Its appearance on this early coin of Hadrian's reign probably coincides with the suppression of an uprising of the Northern British tribes that had begun shortly before or after Trajan's death. Very sensitively and presumably accurately rendered. Fleur de Coin.

*This aureus presents us with a splendid image of one of Rome's most dissolute rulers, Commodus, who is credited by Edward Gibbon with nearly single-handedly instigating the Fall of the Roman Empire. He was not alone in this assessment: The Roman historian Dio Cassius said the accession of Commodus marked the Empire's descent "from a kingdom of gold to one of iron and rust." Certainly other factors were at work, but Commodus' own personal qualities, a strange mixture of indolence and megalomania, played a crucial role in this decline. The polar opposite of his reserved, dutiful father, Commodus indulged his every whim while leaving the administration of Rome to a succession of corrupt favorites. After the execution of his last such vizier in AD 190, he lost all sense of control and launched a nonstop orgy of self-indulgence which all but bankrupted the Empire. His assassination on New Year's Day, 192 opened a Pandora's Box of Civil War from which the Empire never fully recovered. Nevertheless, Roman art reached an astounding peak during this era, as witnessed by the many baroque portraits of Commodus and his often beautiful coinage, as seen here.*

Originally a pastoral valley between Rome's Aventine and Palatine Hills, the Circus Maximus became a racetrack and staging ground for public spectacles soon after Rome's founding circa 753 BC. A long oval track evolved, wide enough to accommodate four quadrigas running abreast. By the third century BC the central spina was in place, a set of starting gates had been added and wooden bleachers were erected partially around its 4,400-foot circuit. Julius Caesar rebuilt the lower tiers in stone and added an upper deck in wood. Pliny claimed the Circus could now accommodate 250,000 spectators but modern estimates top out at 150,000. At great expense, Augustus brought a towering Egyptian obelisk from Hieropolis and placed it at the center of the spina; he also added a high dais called a pulvinar for where the Imperial family could view the proceedings. A veritable city grew up around the Circus, including food stalls, shops, stables and housing; however the ramshackle wooden bleachers continued to represent a fire hazard until Trajan rebuilt the whole structure in stone circa AD 105-110. This remarkable coin, struck circa AD 213, shows the Circus in its final form, with an extensive rebuilding of the starting gate area undertaken in Caracalla's reign.

## Choice Severus Alexander Aureus

**25246 Severus Alexander (AD 222-235). AV aureus (21mm, 6.01 gm, 12h).** Rome, AD 222-223. Calico 3077. Rare! Perfectly struck from fresh dies and possessing a blazing luster. Choice Mint State.

Ex Triton III (30 November 1999), lot 1133.

The reign of Severus Alexander presents the last relatively tranquil interlude before the mid-third century storm swept away the Pax Romana. He was born Marcus Julius Gessius Bassianus Alexianus in AD 208 into a clan of Syrian nobility from the caravan city of Emesa. His maternal grand-aunt, Julia Domna, was married to the Emperor Septimius Severus, making him part of an Imperial family that was largely dominated by a clique of strong-minded and clever women, all named Julia. His grandmother Julia Maesa engineered the Severan dynasty's return to power in AD 218 by fomenting the military coup that placed Alexander's cousin Varius Avitus, known to history as Elagabalus, on the throne. Once ensconced in Rome, however, Elagabalus' behavior grew ever more erratic and outrageous. Fearing for the dynasty's future, Maesa in AD 222 engineered the murder of Elagabalus and his replacement by her other, more docile grandson, Alexander. Handsome and affable, the youth was really never more than a figurehead ruler, first for Maesa and then, after her death in AD 225/6, for his mother Julia Mamaea. As long as the Empire remained at peace, the arrangement worked relatively well; the government functioned smoothly and prosperity reigned. Starting in AD 230, Roman Empire came under attack on two fronts— from Persia in the East and by the German tribes along the Rhine frontier, a foretaste of the decades to come. Alexander managed to check the Persian offensive, but the loss of a large Roman army exposed the regime's military ineptitude. When his mother tried to buy peace from the Germans rather than fight, his outraged soldiers rebelled and murdered them both, launching 40 years of Great Anarchy that nearly destroyed the Empire. Later generations would view Alexander's reign as the last episode of a Golden Age and gave him all the attributes of an Ideal Prince.

This rare and beautiful gold aureus was struck at the outset of Alexander's reign and shows him as a smooth-faced youth of 14. The reverse celebrates "Eternal Peace" throughout the Empire, which, alas, proved all too short-lived.

## Abacus or Coin Scoop?

IMP SEV ALEXAND AVG, laureate head right with slight drapery on far shoulder / LIBERALITAS AVG IIII, Liberalitas standing left, holding abacus (or coin scoop?) and cornucopiae. RIC 204 var. (no drapery). BMC 557 var. (same). Cohen 132 var. (same) Calico 3069 (same dies). Rare. Lustrous. Well-centered with high relief and essentially no wear. Superb Extremely Fine.

*Liberalitas, the Roman personification of Imperial generosity, is shown here holding her identifying attributes — an object usually described as an abacus (for coining coins?) and a cornucopia, symbol of plenty. An alternative view is that the shovel-shaped object is a scoop for distributing coins during a **congiarium**, a ceremony in which the Emperor hands out largesse to the civilian populace. The equivalent military ceremony is called a **donativum**. The exact amount distributed on these occasions has been documented for a number of rulers: Trajan is said to have handed out 75 silver denarii per citizen at his first congiarium.*

*This and the following group of choice silver argentei are part of a special issue struck at Serdica to mark the abdication of Diocletian and Maximian and the ascension of Galerius and Constantius I to the rank of joint Augusti. Previously quite rare (RIC lists the type as R4), Serdica silver argentei of Galerius as Augustus are still quite scarce and often misidentified as coins of Maximian, since Galerius adopted the name of his former senior emperor and used it almost exclusively on his coinage. Though the portraits are highly stylized in Tetrarchic fashion, the differentiation can still be made by the portraiture — Maximian has a flatter face and a more protruding nose than Galerius.*

## Silver Rarity in FDC

- 25279** Maximinus II Daia as Caesar (AD 305-309). AR argenteus (19.5mm, 3.45 gm, 12h). Serdica, AD 305-306. MAXIMI - ANVS NOB C, laureate head of Maximinus right / VIRTVS - MILITVM, fortress gate topped by three turrets or beacons; in exergue •SM•SDT•. RIC 22. RSC 206. Very rare! A flawless specimen, perfectly centered on a broad flan and deeply struck in choice metal. Fleur de Coin.

*Maximinus II Daia (or Daza), the nephew of Galerius, was serving in the imperial bodyguard in AD 305 when his uncle plucked him from obscurity and elevated him to the rank of Caesar in the Second Tetrarchy. Once established in power in his territories of Egypt and Syria, Daza seems not to have impressed his uncle greatly, for he was passed over for promotion twice in the chaotic years AD 306-309. In 310, he took matters into his own hands by having his troops proclaim him Augustus, setting him against four other Augusti (Galerius, Licinius, Constantine and the rebel Maxentius) and making a shambles of Diocletian's carefully constructed tetrarchic system. After Galerius' death in 311, Daza cast himself in his uncle's mold as the defender of paganism and a persecutor of Christianity, placing him in opposition to Constantine and Licinius, who favored religious toleration. After Constantine crushed Maxentius in 312, Daza attempted to do the same to Licinius, invading Thrace the following year with a sizeable force of 70,000. But his long forced marches exhausted his troops and the outnumbered army of Licinius won a resounding victory at the **Battle of Tzirallum in AD 313**. Daza fled the field dressed as a slave, but soon died either of disease or by his own hand. His rule had been harsh and his subjects welcomed Licinius as a liberator. Christians in particular reviled Daia as the last great Roman persecutor. This extremely rare argenteus, probably issued to mark the elevation of Maximinus II as Caesar, was struck at the Balkan mint of Serdica. Until recently, only a single specimen was known. RIC associates this issue with argentei of Severus II as Augustus (RIC 21), dated AD 306-307, but it now seems more likely the coin was struck a few months earlier, at the same time as the recently discovered argentei of Severus II as Caesar to mark the commencement of the Second Tetrarchy. RIC 25a. Cohen 25. Faint scratch in reverse field, otherwise Choice Extremely Fine.

The last truly great Emperor of the West, Valentinian I was born in AD 321 to a Pannonian peasant who rose through army ranks to become a general. He received a solid education and followed his father into the army, becoming a cavalry officer and winning distinction under Constantius II. His Christianity, however, alienated him from the pagan Julian II, and he was demoted and banished to Egypt in the early 360s. After Julian's defeat and death in Persia in AD 363, his successor Jovian recalled Valentinian and placed him in command of the elite Scholarian Guard. Upon Jovian's death only a few months later, leaders of the Roman army met and deliberated for ten days before proclaiming Valentinian emperor on February 25, AD 364. With the army deeply divided between regional factions, Valentinian appointed his younger brother Valens co-emperor and placed him in charge of the East, while Valentinian himself took command of the more seriously threatened West. Valentinian made Milan his provisional capital but spent most of his time on the German frontier strengthening fortifications and battering barbarian tribes into submission. Concerned that the burden of taxation was falling too heavily upon the poor, he appointed officers called "Protectors of the People" who made sure the rich paid their fair share. Though the Senatorial class deeply resented him as an uncultured brute, Valentinian possessed a firm understanding of administration as well as an appreciation for art and literature. He also followed a policy of strict religious tolerance, unlike rulers before and after him. He did, however, have a ferocious temper and kept a trained bear which he employed to maul those who greatly displeased him. After eleven successful years of rule, Valentinian's temper got the better of him during an audience with several Germanic chieftains in November AD 375. When they failed to show him proper respect, the emperor flew into a rage and suffered an apoplectic stroke. His death proved a great tragedy for the Empire, as a man of his skill and energy might have averted the catastrophes that soon followed.

*The career of Justin I shows the remarkable social mobility possible in the Late Roman Empire. Starting out adult life as a swineherd of rough Thraco-Roman stock, Justin fled to Constantinople when a barbarian invasion wiped out his flocks. He entered the army, rose through the ranks and became commander of the Emperor Anastasius' palace guard. Upon Anastasius' death in 518, Justin was chosen as his successor by the army and Senate, even though he was illiterate and of low birth. He soon adopted his clever and industrious nephew, Flavius Petrus Sabbatius, as his son and chief advisor, giving him the name Justinian. Some historians assert Justin was little more than a figurehead for Justinian, the real power behind the throne. In AD 525, Justin issued an edict repealing a law prohibiting men of the senatorial class from marrying commoners, particularly women of the theater, thus paving the way for Justinian to marry the actress Theodora. With his health failing, Justin in April of AD 527 made Justinian co-emperor and issued coins celebrating the joint reign. Justin died in August, and his nephew commenced on a momentous reign that brought Byzantium to the height of its splendor.*

*This issue of Justinian II is the first coin of any kind to bear an actual portrait of Christ. Remarkably, even at this relatively early stage of Christianity, the iconography of Christ is relatively fixed—he is shown bearded, with long, straight, flowing hair, holding a jeweled book of the Gospels in his left arm and raising his right hand in a sign of benediction. In the coinage of Justinian's second reign (AD 705-710), the depiction is quite different, with short, curly hair and more Semitic features (see lot 25330). Justinian's immediate successors did not repeat the experiment in sacramental portraiture, but after the fall of Iconoclasm in the early ninth century the depiction of Christ on coinage resumed, becoming the most prevalent obverse type through the fall of Byzantium in 1453.*

Justinian II's rule of his Italian provinces was every bit as despotic and capricious as his reign of terror in Constantinople. In 692, during his first reign, he had assembled the Council of Trullo, packed it with suppliant Eastern bishops, and directed it to draw up a series of harshly repressive measures outlawing many of the festivals and rituals used by the Western Church. Pope Sergius I refused to back many of its canons and Justinian sent an army to Rome to arrest him. The Papal guards and local militia rallied to his cause, however, and Sergius escaped punishment, only to die of natural causes in AD 701. During Justinian's bloody second reign, he ordered a punitive expedition against Italy in AD 709 to punish Ravenna and Rome for their resistance. This time the new Pope, Constantine, forestalled further bloodshed by traveling to Constantinople and appealing to the emperor in person. Justinian seems to have had a sudden change of heart and greeted the Pope warmly. Emperor and Pope arrived at a surprisingly even-handed compromise over the Council of Trullo, allowing the Western church to retain many of its practices. Alas, both men would soon be dead—Justinian was overthrown the following year and Constantine was murdered by mutinous troops in November 711. By Justinian's second reign, much of Italy had been wrested from Byzantine control by the Lombards. A few Imperial enclaves hung on, mainly Rome and Ravenna, although both were effectively autonomous. This remarkable gold solidus, probably struck at Rome but possibly at Ravenna, conforms to the revolutionary types adopted by Justinian II in Constantinople, showing Christ with a head of short, curly hair and a close-cropped beard, much different from the traditional portrait. It may have been influenced by the so-called Mandyllion, a miraculous portrait of Christ dating from his lifetime.

*Irene was a legendary beauty from Athens who married the Emperor Leo IV and soon came to dominate domestic affairs in his government. When Leo died in 780, Irene ruled as regent for her adolescent son Constantine VI. Though the Isaurian dynasty had initiated iconoclasm and vigorously attacked the use of sacred images, Irene called a church council at Nicaea in 787 that declared iconoclasm to be heretical. This won her enemies in the army, which was heavily iconoclast, and in 790 she was temporarily ousted in a coup led by her now 20-year-old son. But he showed no talent for ruling and recalled her two years later. After Constantine embarrassed the regime with a series of military blunders and public scandals, Irene had him ousted and blinded in 797, seizing sole power for herself. This coin was struck during the period between her recall by Constantine and the beginning of her sole rule.*

# Terms and Conditions of Auction

## Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., or Heritage Auctions, Inc., or Heritage Numismatic Auctions, Inc., or Heritage Vintage Sports Auctions, Inc., or Currency Auctions of America, Inc., as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the "Auctioneer"). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

## Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
  - Fifteen percent (15%) on, Currency, US Coin, and World & Ancient Coin Auctions Lots. Beginning with Auctions closing after July 31, 2012 the Buyer's Premium in Currency, US Coin, and World & Ancient Coin Auctions will be 17.5%.
  - Nineteen and one-half percent (19.5%) on Americana & Political, Arms & Armor, Civil War & Militaria, Comic, Manuscript, Movie Poster, Space Exploration, Sports Collectibles, Texana, Wine, and Gallery Auction (sealed bid auctions of mostly bulk numismatic material) lots;
  - For lots in all other categories not listed above, twenty-five percent (25%) on the first \$50,000 (minimum \$14), twenty percent (20%) of any amount between \$50,000 and \$1,000,000, and twelve percent (12%) of any amount over \$1,000,000.

## Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

## Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

## Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

## Bidding Options:

8. Bids in Signature. Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at HA.com/common/howtobid.php.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-443-8425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments.

Current Bid.....	Bid Increment	Current Bid.....	Bid Increment
<\$10 .....	\$1	\$20,000 - \$29,999 .....	\$2,000

\$10,000 - \$19,999 .....	\$1,000		

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

## Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid", THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.
14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40-60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (approximately 50%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 1-800-872-6467.
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

## Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes "good funds": checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot.
25. Lots delivered to you, or your representative in the States of Texas, California, New York, or other states where the Auction may be held, are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. (Note: Coins are only subject to sales tax in California on invoices under \$1500 and in Texas on invoices under \$1000. Check the Web site at: <http://coins.ha.com/c/ref/sales-tax.zx> for more details.) Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount or three percent (3%) of any installment that is past due. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 10% seller's commission, if assigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 10% seller's commissions, if sold at an Auctioneer's auction.

# Terms and Conditions of Auction

29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale. In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.
31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

## **Delivery; Shipping; and Handling Charges:**

32. Buyer is liable for shipping and handling. Please refer to Auctioneer's website [www.HA.com/common/shipping.php](http://www.HA.com/common/shipping.php) for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.
33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.
34. All shipping charges will be borne by the successful Bidder. On all domestic shipments, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file (carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature) or delivery by Heritage to Bidder's selected third-party shipper. On all foreign shipments, any risk of loss during shipment will be borne by the Bidder following Auctioneer's delivery to the Bidder's designated common carrier or third-party shipper.
35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.
- 36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay or failure to obtain any such license or permit does not relieve the buyer of timely compliance with standard payment terms. For further information, please contact Ron Brackemyre at 800- 872-6467 ext. 1312.
- 36B. Auctioneer shall not be liable for any loss caused by or resulting from:
- a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
  - b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles
37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

## **Cataloging, Warranties and Disclaimers:**

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions. .
39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

## **Release:**

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opinions, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.
44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or inconsequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

## **Dispute Resolution and Arbitration Provision:**

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.
46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.
47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.
48. Dispute Resolution for Consumers and Non-Consumers: Any claim, dispute, or controversy in connection with, relating to and/or arising out of the Auction, participation in the Auction, award of lots, damages of claims to lots, descriptions, condition reports, provenance, estimates, return and warranty rights, any interpretation of these Terms and Conditions, any alleged verbal modification of these Terms and Conditions and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation shall or any other matter: a) if presented by a consumer, be exclusively heard by, and the parties consent to, exclusive in personam jurisdiction in the State District Courts of Dallas County, Texas. THE PARTIES EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY. Any appeals shall be solely pursued in the appellate courts of the State of Texas; or b) for any claimant other than a consumer, the claim shall be presented in confidential binding arbitration before a single arbitrator, that the parties may agree upon, selected from the JAMS list of Texas arbitrators. The case is not to be administered by JAMS; however, if the parties cannot agree on an arbitrator, then JAMS shall appoint the arbitrator and it shall be conducted under JAMS rules. The locale shall be Dallas Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. Any party on any claim involving the purchase or sale of numismatic or related items may elect arbitration through binding PNG arbitration. Any claim must be brought within one (1) year of the alleged breach, default or misrepresentation or the claim is waived. This agreement and any claims shall be determined and construed under Texas law. The prevailing party (party that is awarded substantial and material relief on its claim or defense) may be awarded its reasonable attorneys' fees and costs.
49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.
50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid or arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.
51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

## **Miscellaneous:**

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

# Terms and Conditions of Auction

## Additional Terms & Conditions:

### COINS & CURRENCY

**COINS and CURRENCY TERM A:** Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-8726467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

**COINS and CURRENCY TERM B:** Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (1-800-872-6467) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

**COINS and CURRENCY TERM C:** Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

**COINS and CURRENCY TERM D:** Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcg.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

**COINS and CURRENCY TERM E:** Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

**COINS and CURRENCY TERM F:** Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

**COINS and CURRENCY TERM G:** Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

**COINS and CURRENCY TERM H:** Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

**COINS and CURRENCY TERM I:** Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

**COINS and CURRENCY TERM J:** All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

**COINS and CURRENCY TERM K:** Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

**COINS and CURRENCY TERM L:** Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

**COINS and CURRENCY TERM M:** NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

**COINS and CURRENCY TERM N:** For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

**COINS and CURRENCY TERM O:** Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.
